Ningbo BRIGHT BIRD electronics co., ltd is a professional manufacturer of LED flashlight, such as LED pocket flashlight, LED tactical flashlight, LED strong light flashlight, LED focusing flashlight, UV flashlight etc. We have 75 CNC machines and more than 200 workers, 8 assembly lines, daily production capacity of 20,000 pcs flashlight finished products, which can meet different types of different orders in time. We design 3-5 products in each quarter to meet different customers, ODM service is our main business too. Our company has passed ISO9001: 2005 and BSCI.

From the whole production process, incoming quality control, process inspection, finished product inspection meet the requirements of ISO strict requirements and strict implementation, our production line staff are experienced young people, energetic and motivated, but also have solving problem reward and punishment system, and reach 5S rectification at the same time, reducing waste of raw materials and loss in the production process, improve the conforming product rate. Professional sales team, not only understand our products and technology, but also know about the customer's target market, provide the most professional services according to the customer's target market and brand positioning, for example, recommend products suitable for the target market and the most suitable packaging.

At present, we focus on the rechargeable lithium battery powered LED flashlight. Its luminous flux can reach 8000 lumens at most and illuminate distance as much as 500 meters. Both PCB and battery of flashlight are protected by over-charging and over-discharging, that means when the voltage of the battery is below 2.5 V, the flashlight will not work, and when the battery is fully charged, the power will be automatically cut off. This way of battery protection can ensure that the battery is charged and discharged 500 times, and it also ensures the personal safety of users at the same time. The waterproof grade can reach IPX7 and can be used underwater. All of flashlights have passed CE, RoHS, REACH, etc. and meet Ca65 request for the United States. We mainly sell the Europe and North America and receive well reputation from local markets.
