Dimensional drawing:

Parameters:

Cabinet Material	304 Stainless Steel
Dimensions	168*168*1050mm
Weight	60KG
Arm Length	≤ 900mm
Passage Width	≤ 900mm
Opening Signal	Relay
Material Thickness	1.5mm
Card-reading Window:	Two
Protection function	Infrared anti-pinch,Break-in alarm function
Direction	Bi-directional
Service Life	5million times
Operating Temperature	-25°C ~ +60°C
Related Humidity	≤ 90%RH
Communication Interface	TCP/IP
Power Rate	90W
Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Opening Speed:	30-45persons per minute

Application:

Supermarket swing gate

- 1.Can be compatible with IC /ID card,bar code card,fingerprint access control method.
- 2.Used for staff, provide civilized ,orderly access methods; effectively manage the access of staff .
