SHKL SHOWER ENCLOSURE

With excellent craftsmanship and fashion aesthetic integration , to create a romantic and elegant atmosphere.  
Make your choice more discerning

Fully-closed double rail design will never be derailed and have no shaking. The product safety performance has reached the top.

Top rail wall thickness has reached 3.0mm thick, and its rigidity and bearing capacity are far beyond the 1.2mm thick top rail used commonly in the market.

304 stainless steel 8-pulley has no rust or oil leakage, with the bearing capacity and sliding smoothness much better than the double-pulley product mostly used in the market.
