

## LPR Camera with Parking Barrier Gate Machine

### Item No.: RPL-YY04

This product is a mature and stable all-in-one license plate recognition machine equipment that has been upgraded and improved by **Realpark** for many years. This machine is easy to install and has high cost performance, which is widely accepted by the market. The equipment is widely used in: government agencies, intelligent building buildings, office buildings, high-end property communities, colleges and universities, enterprises and institutions, industrial and mining enterprises and other places.

### Features:

- ① Powerful platform support: High-definition license plate recognition + cloud platform perfectly fit together, plus cloud platform payment, management and other functional features, showing the value and advantages of the unattended parking system!
- ② Humanized appearance design: unique appearance design, camera concave installation design, better applicability; avoid light and rain, directly view the license plate.
- ③ Personalized and ingenious creation: real materials, exquisite workmanship, unique ingenuity; full, exquisite, atmospheric, and good color sense; meet customers' needs for advocating practicality and beauty!
- ④ Diversified scene application: adapt to different scenes, the built-in angle of the camera can be adjusted and installed flexibly, which can achieve the best recognition angle, and the recognition rate is over 99%.
- ⑤ The LED screen can display QR codes of different colors according to different time periods, which is convenient for customers to scan the codes.

## Technical Parameter

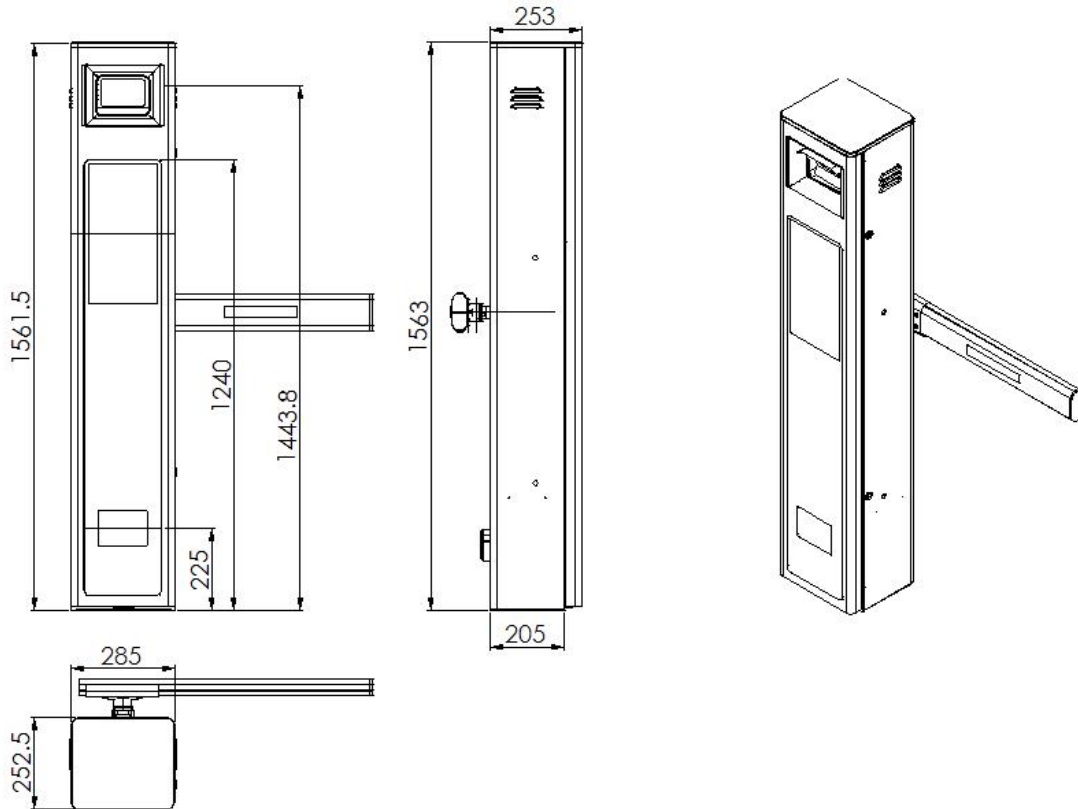

Part Number		RPL-YY04
LED Screen	Size	L192cm*H384cm (P3 full-color LED eight-line display)
	Resolution	Two Pieces of Single LED module 64*64 Dot-matrix
Car License Plate Camera	Picture Output	2 Million/3 Million/4 Million Mixel JPEG
	Minimum illumination	0.01Lux
	Aperture	Fixed Aperture
	Focal Length	6mm
	Storage Interface	Support SD2.0 Standard Micro SD(TF) Card, Max 32G
	Wide Dynamic Range	≥100dB
X04 Main Board	Voice	Remind Temporary Cars and Vip Cars, Welcome to you, Have a nice day, etc.
	Show	Support Multi-LED Module
Barrier Gate	Voltage	AC220V±10%, 50Hz/60Hz
	Motor Type	The Sixth Generation Brushless DC Motor
	Working Temperature	-20°C~ +70°C
	Ambient Humidity	5% to 95%
	Fixed Direction	Can be interchanged left and right (Need to add accessories)
	Pole Length	≤ 6 meters straight/curved pole ≤ 5.5 meters two columns ≤ 4.5 meters three columns
	Input Signal	Open, close, stop, ground sense, anti-smashing
	Motor Power	100W
	Remote Control Frequency	430Mhz
General Parameters	Protection Class	IP42, Certain Dustproof and Waterproof
	Operating Temperature	-10°C ~ 60°C (Optional Thermostat)
	Working Humidity	5%~85%
	Power Consumption	160W MAX
	Equipment Size	285*253*1563mm (Width*Thickness*Height)
	Weight	≈50kg
