INNER BALL ROLLER MACHINE

compression micro-vibration

NEW infrared technology

THE LATEST GENERATION OF
WHOLE BODY CARE

Anti-Wrinkle

Face Lifting

Fat Burning

Body Shaping

Tendons relaxing

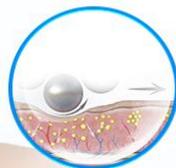

INNER BALL ROLLER MACHINE PRINCIPLE

non-invasive mechanical compression micro-vibration + infrared treatment

Through the 360° rotation and rolling of the silicone ball along the roller, the compression micro-vibration is generated.

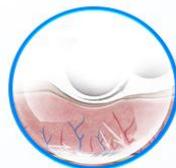

As the ball rotates and exerts pressure on the skin, the effect of "pulsating compression" is generated, and the reciprocating movement of continuous pushing, pulling and kneading are achieved.

The tissue will experience some pressure and lifting actions without squeezing or damaging the skin.

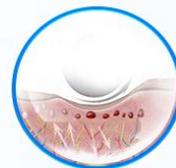

Reshaping action

Reshape contours and smooths out wrinkles

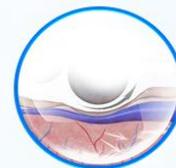

Muscle action

Tone muscles and tightens tissues

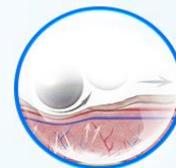

Sedation

Improve oxygen and eliminate pain

Drain action

Eliminate toxins and help lymphatic drainage

Vascular effect

Improve blood circulation and nourish tissues.

FIVE FUNCTIONS OF THE PRODUCT

◎ Anti- Wrinkle

Stimulating the contraction and re-generation of collagen fibers in the dermis, and making the skin firmer and smoother.

◎ Fat Burning

Dissolve fat and decompose

◎ Body Shaping

Create beautiful body curves.

◎ Tendons relaxing

Dredge meridians and promote blood circulation.
