A huge wealth gold mine (profit point) in the Chinese swimming and water market

The pleasure of playing in water is human nature. Creatures originate from the ocean, and the love for water is rooted in the depths of everyone's heart. More than 1 billion people participate in swimming in China every year, but before, there were only over 10000 swimming pools, swimming pools, and water parks in the country, and most of them were old swimming venues that urgently needed to be renovated, expanded, and added amusement equipment and facilities. Natural water bodies were also severely polluted.

The booming swimming and water market is clearly the result of a shortage of supply, so why are few businesses willing to invest? Industry insiders believe that there are three main reasons: first, high investment; second, difficulty in finding construction land; and third, high maintenance costs. Therefore, currently only a few investors with huge funds are investing in large water parks in first tier cities, while facing the huge market in China's second and third tier cities, small and medium-sized investors can only sigh at the water. How to continuously break through the threshold of per capita GDP, increase consumer demand for citizen enjoyment, and highlight the potential of the swimming water market today? Seizing the opportunity to develop this gold mine, Anxin Removable Water Park has provided the answer.

Anxin Amusement Mobile Water Park is committed to being the safest, cleanest, happiest, and most fully functional water park in China, and is the easiest to establish and implement water park project to distinguish it from theme parks and traditional swimming venues that have invested over 100 million yuan. The main mobile swimming pool products have outstanding advantages such as high cost-effectiveness, easy disassembly and assembly, water purification, ultra long service life, easy maintenance, and complete supporting facilities

Easy disassembly and assembly

Its special design and construction make installation and disassembly very convenient and easy to operate. A standard 25X50 meter swimming pool can be built in just a few hours. Built during the business season, it can be completely disassembled, boxed and stored in the warehouse when not in use after the season, greatly saving land resources. Without the need for land approval or occupation, indoor and outdoor spaces such as city squares, sports stadiums, exhibition halls, and parking lots can miraculously and quickly build a fully equipped water amusement park full of laughter and joy assembly

High cost performance ratio

The price of detachable mobile swimming pools is only about one-third of that of traditional swimming pools.

Easy maintenance

Anxin Amusement's detachable swimming pool adheres to "high quality and high standards" in design, craftsmanship, raw materials, production, and construction, ensuring a super long service life of over 10 years for mobile swimming pool products.

Water purification

By using a matching sand tank water pump equipment, water purification treatment can be carried out through uninterrupted water circulation filtration. The entire water pool can be filtered every few hours, supplemented by manual cleaning and professional water quality management to achieve clear and hygienic water quality.

Long lifespan

Anxin Amusement's detachable swimming pool adheres to "high quality and high standards" in design, craftsmanship, raw materials, production, and construction, ensuring a super long service life of over 10 years for mobile swimming pool products.

From design to operation, a complete set of water park solutions will be developed to turn the water park into a comprehensive profit platform (investment return)and water market

Our advantage is not only in the mobile swimming pool itself, but also market-oriented. We focus on a series of solutions that guide the successful operation of the venue, including site survey, overall park planning, functional design of wine covers, product matching, market operation, channel construction, media marketing, etc. Starting from the characteristics of each city, we help our venue investors and operators to develop professional solutions on how to plan and promote, price positioning, channel construction, team building and management, media cooperation and marketing, equipment construction and maintenance, establish reasonable operating processes, safety guarantees, and safety plans.

Our service aims to ensure that venue operators maximize their investment and ensure that the operation of every mobile water park is in the best state. Our measure of success is to ensure that our venue operators achieve their commercial goals in the operation of the water park - the number of visitors, tourist satisfaction, profit points, in addition to basic ticket revenue, are more comprehensive, and the turnover and return on investment are higher:

Inflatable ice bath bucket

Ice bath bucket benefit:

benefit:

Sports recovery
After taking an ice bath, I feel warm and refreshing. It can help alleviate muscle soreness, burning, and pain after training.

Ice bath bucket benefit:

benefit:

Sports recovery
It can help the central nervous system, deepen sleep, so that your body can avoid fatigue and recover more effectively.

Anxin Amusement

Anxin Amusement

Anxin Amusement

Ice bath bucket benefit:

Enhance visceral function
The water pressure experienced by people in water is called "hydrostatic pressure". It can make various parts of the body bear the same weight as water, help improve the function of the circulatory system, improve liver and kidney function, relax qi and blood, and eliminate edema.

Ice bath bucket benefit:

Stress relief
Improving sleep pain and alleviating cardiovascular health.

Ice bath bucket benefit:

Open pores
When taking a shower, the water temperature is high, which helps to open the pores of the skin, remove the oil and dirt on the surface of the skin, and effectively prevent oil and dirt from blocking the pores, leading to problems such as acne.

Ice bath bucket benefit:

Muscle relaxation
Improve insulin sensitivity and calorie burning.

关于我们 | ABOUT US

Henan Anxin Cultural and Tourism Group Co., Ltd. was founded in 2008, relying on the core business of tourism scenic spot planning, theme park design, and engineering construction, continuously expanding and integrating the industrial value chain. Now, it has grown into a cultural and tourism industry service and operator, forming a group company that integrates tourism planning and design, engineering construction, operation management, and cultural education. The registered capital of the company is 10 million yuan, covering an area of 45000 square meters, with more than 380 employees, more than 150 senior technicians, more than 30 senior engineering designers, and more than 180 engineering team members with relevant construction qualifications. It can simultaneously develop and construct multiple scenic spots across the country.

The company specializes in the research and development, design, sales, production, and installation of unpowered leisure and entertainment facilities, glass observation platforms, glass slides, small waist complexes, water parks, research and development, and camping equipment projects.

The enterprise has successively passed the certifications of ISO9001 Quality Management System, GB/T24001 Environmental Management System, and GB/T45001 Occupational Health and Safety Management System.

Our project has been exported to more than 80 countries and regions, including the United States, Canada, Australia, Germany, Japan, Russia, Southeast Asia, South America, and the Middle East, and has gained stable markets in more than 30 countries. In China, we have completed over 400 tourism projects, covering various categories such as theme parks, characteristic towns, rural complexes, rural tourism, red tourism, study camp tourism, health tourism, and ecotourism.

In the future, the company will adhere to the development philosophy of "integrity, pragmatism, efficiency, innovation, and focus", adhere to the mission of "spreading civilization and creating joy", and strive for the goal of "leading the cultural and tourism industry" with the spirit of "hard work and never giving up", striving for the great rejuvenation of the Chinese nation.
