Ferris wheel

Carousel

Revolving horse game machine, novel shape, colorful color, is a young friends love to ride the game machine. After the turntable starts, the turntable rotates at a constant speed, and the different shapes of the turntable rise and fall, so that the players have the feeling of raising the whip and galloping the field.

This product is suitable for parks, amusement parks, children's palaces, life squares, communities and other densely populated mobile places. The product is made of glass steel material, with environmental protection, safety, corrosion resistance, good stability and other characteristics, can be customized according to the site conditions.

Carousel

Swivel Flying Chair

1. strong attraction: the rotating flying chair is usually located in the conspicuous position of the playground, and its unique movement mode and appearance design can attract the attention of tourists and increase the interest of tourists.
2. Good experience: During the operation of the rotating flying chair, visitors can experience the feeling of flying, especially when rotating at high altitude, it can bring excitement and fun, suitable for tourists of all ages.
3. Decorative: The rotating flying chair is usually designed with exquisite lighting and decoration, and can become a beautiful landscape of the playground when running at night.
4. Social interaction: The rotating flying chair can usually be used by multiple people at the same time, which promotes the interaction and communication between tourists and increases the fun of playing.
5. High flexibility: The rotating flying chair can adjust the rotation speed and height according to the needs to adapt to the needs of different tourists.

Swivel Flying Chair

Pirate Ship

Pirate ship is the 1 kind of newly designed sightseeing car amusement machine. It is the 1 kind of amusement project that swings back and forth around the horizontal axis. This kind of amusement machine has different names due to the same modeling diagram. "Pirate ship" is named after its appearance antique pirate ship. The shape of the pirate ship is American Indian tribal style. After starting, the pirate ship swings slowly and rapidly. Passengers ride on the pirate ship and swing back and forth from slow to rapid, just like visiting the stormy sea. From time to time, they rush to the peak of the waves, sometimes fall to the bottom of the valley, thrilling and exciting, challenging the limit of your psychological endurance.

© Spin Pulley design drawings

Spin Pulley

The spin tackle is the 1 kind of mobile equipment that glides on the track. Tourists sit on the flying squirrel and sometimes climb the slope slowly and sometimes dive quickly on the 300-meter high and low tracks. It is really exciting. This project is suitable for all ages, loved by the majority of tourists.

Spin Pulley

Jungle Flying Rat

Jungle flying squirrels rely on the body to rush down the maze track under the action of inertial force, like flying squirrels lost in the jungle, like flying squirrels eager to find a way out, jumping up and down, hovering and flying. Riding on it also allows passengers to fully appreciate the heartbeat and excitement brought by the rapid speed changes.

Jungle Flying Rat

© Glide Dragon design drawings

Glide Dragon

After the sliding dragon amusement equipment is lifted to a certain height by the lifting device, the structural movement characteristics: the vehicle itself has no power. It is reliable to run along the track or the vehicle itself has power and runs on a track with large undulations.

Glide Dragon

Automatic Control Aircraft

1. Strong interaction: passengers can personally control the plane and experience the fun of flying. This sense of participation is a highlight of the self-controlled aircraft, which can attract tourists to play repeatedly.
2. Adaptable: Self-controlled aircraft are suitable for passengers of different ages, especially children and teenagers, and can also attract some adults.
3. Low maintenance cost: The structure of the automatic control aircraft is relatively simple, and the maintenance is more convenient, which reduces the operating cost.
4. Strong customizability: The automatic control aircraft can be customized according to customer needs, including appearance design, size, function, etc., to adapt to different market positioning and theme styles.

Automatic Control Aircraft

Space Walk

- 1. Novelty experience: The spacewalk equipment provides 1 unique experiences that simulate spacewalks, which is very attractive to tourists who pursue freshness and excitement.
- 2. Wide range of adaptation: The spacewalk equipment is suitable for tourists of different ages, whether children, teenagers or adults can enjoy this experience.
- 3. Does not occupy ground space: Since the equipment is usually suspended in the air, it will not occupy ground space, which is conducive to the site planning of amusement parks or entertainment venues.
- 4. Good economic benefits: Due to the uniqueness of the spacewalk experience, it can attract a large number of tourists, thereby bringing good economic benefits.

Space Walk

Bumper Car

1. Strong interaction: bumper cars allow direct interaction between tourists, through chasing and collision to increase the fun of the game, suitable for family and friends to play together.
2. Strong adaptability: Bumper cars are suitable for tourists of different ages, and both children and adults can enjoy the fun.
3. Strong durability: Bumper cars are usually made of sturdy materials, can withstand frequent use and collisions, and have a long service life.
4. Diversity: Bumper cars have a variety of styles and themes, which can be selected and customized according to the overall style of the playground to increase attractiveness.
5. Strong entertainment: bumper cars provide 1 simple and pure entertainment, which can bring tourists a tense and exciting game experience and release pressure.
6. Good economic benefits: The investment cost of bumper cars is relatively low, and the operating cost is not high, but it can attract a large number of tourists and bring good economic benefits to the amusement park..

Bumper Car

Sightseeing Train

- 1. As a characteristic means of transportation in scenic spots, sightseeing trains are not only responsible for passenger transport, but also an important tourist attraction.
- 2. Scenic spot sightseeing train can integrate multiple scenic spots, especially for large-scale scenic spots, scenic spot train is an effective tool to improve the traffic accessibility of various scenic spots.
- 3. the tourist landscape design along the sightseeing train should be rich and varied, changing the scenery step by step to give tourists a visual feast.
- 4. the scenic sightseeing station should be set up along the small train. besides the necessary tourist facilities, the scenic sightseeing station should also be equipped with rich and colorful tourist activities and projects.

Sightseeing Train

Dave Duck

In the distant Happy Valley, there is a group of lively and lovely little yellow ducks, they all have a common name-"carnival duck". They are not ordinary ducks, but magic messengers who bring infinite joy to the children. Here, let's uncover the mystery of the "carnival duck" theme amusement equipment and take you into a fairy tale world full of laughter.

The story begins on a sunny morning. The little yellow ducks wake up by the pond in Happy Valley. They line up neatly, ready to lead the children on a day of adventure. In this magical paradise, each 1 "carnival duck" has its own story. They use warm plots and interesting interactions to immerse children in dreamlike scenes.

Theme highlights:

- 1.Unique design: The lovely yellow duck as the prototype, combined with a vivid story, to create a full of fun amusement equipment.
- 2.Rich types: including unpowered and powered equipment to meet the needs of children of different ages.

The embodiment of interest:

Interactive experience:

- 1.children can participate in various games with "carnival duck", such as adventure, competition, etc., to enhance the interaction between parents and children.
- 2.Role-playing: Children can incarnate the little yellow duck, participate in the storyline, experience different roles, and cultivate imagination.

Advantages of this theme:

- 1.Attraction: The cute "carnival duck" image attracts the children's attention and makes them linger.
- 2.Educational significance: through the story, the transmission of positive energy, cultivate children's team spirit.
- 3.Safety: All equipment is made of environmentally friendly materials to ensure the safety of children during play.
