COMPANY PROFILE

公司简介

Use Design To Create Space and Solve Problems Relieve anxiety and irritability in dense public places and make everything comfortable.

Constantly expanding the boundaries of design and create a better world around you.

We highly valued the importance of design, environment, community service, and the health and happiness of customers and employees. Providing customers with innovative ways to improve the organization's environment and space has become our identity.

With decades of experience and extensive product line, we provide the best solutions for our customers worldwide. We focused on several key businesses, brands and distribution channels, including public services, healthcare, catering, and office space. All our work is dedicated to designing and building a better life for you.

NEW TECHNOLOGY, NEW EXPERIENCE

Polyurethane (PU) is one of the newest revolutionary raw materials in the industry. In addition to the soft touch of leather, Polyurethane adds unique durability and easy-to-clean characteristics.

用设计营造空间, 解决问题 缓解在密集的公共场所的焦虑和烦躁, 让一切变得舒适。

不断拓展设计的边界, 围绕您创建一个更美好的世界。

我们高度重视设计、环境、社区服务, 以及客户和员工的健康与幸福。以创新途径为客户提供改善组织机构的环境及空间已经成为我们的标志。

通过十多年积累的经验和丰富的产品线, 为全球客户提供最好的解决方案。我们运营多个重点业务、品牌和分销渠道, 包括公共服务、医疗、餐饮、和办公室空间。我们的所有工作都致力于为您设计并构建更美好的生活。

全新的技术, 全新的体验。

Polyurethane (PU) 是物料界最新的革命性原料之一, Polyurethane除了可造出皮革的柔软触感, 亦增添了独特的耐用及易清洁的特点。

Automotives often use Polyurethane as a interior material, which can be found in seating, instrument panels, door panels, and other interior surfaces.

We have more than ten years of craftsmanship to create high-quality materials to reshape a leather-free world. Allergen-free PU self-skinning can be antibacterial, stain-resistant, and disinfection, suitable for various public places and outdoor facilities.

The acquisition of real skins is often followed by gory killings, and the indirect killing of those precious, innocent critters is a bit heartbreaking.

The rise of vegetarianism and vegan living has led to increasing consumer demand for equivalent substitutes for leather. Leather is a scarce resource and cannot be cleaned with water, and will crack over time or if not properly maintained.

HEWEI is promoting these emerging materials as viable fur substitutes, and together with PURON + European design team to launch a new "leatherless" series of seats, demonstrating the development of imitation leather materials and the improvement of their quality, making them more effective in various fields.

市场上, 汽车内饰亦以广泛使用Polyurethane作为代替皮革的材料, 可见这种PU皮革仿真皮的能力。

我们使用已经流传十多年的工艺, 打造高质量物料, 去重塑一个无皮革的世界。无过敏源PU自结皮可抗菌, 防污, 消毒, 适用于各种公共地方及户外设施。

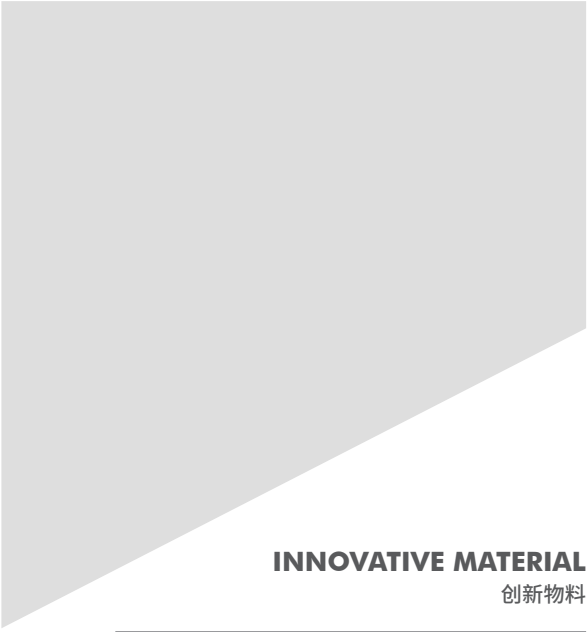

真皮的获取, 背后往往都是血淋淋的杀戮, 间接杀害那些珍贵无辜的小动物实在有点让人心痛。

素食与纯素生活的兴起, 令消费者对皮革的相等代替品需求日益上升。真皮资源稀少、不耐水性不能用水清洁, 时间久或保养不当会龟裂。

HEWEI正协助推广这些新兴物料作为可行的皮革代替品, 並與PURON + 歐洲設計團隊推出全新“无皮”系列座椅, 展示了仿皮材料的发展和其素质的提升, 使其在各领域的应用更趋普及。

MATERIAL INTRODUCTION

物料简介

A large gray square with a diagonal cut from the bottom-left corner to the top-right corner, creating a white triangular area in the bottom-left.

INNOVATIVE MATERIAL
创新物料

Post-pandemic, cleanability has become the primary consideration in high-contact areas. Cleaning and disinfecting protocols have been increased dramatically to several times a day and the cleaning products used will vary widely from disposable wipes to bleach-based, alcohol-based, quaternary-based and hydrogen peroxide-based disinfectants.

HEWEI's innovative technology can maintain the bright colors of the materials, softness and durable characteristics, and robust enough to stand up to rigorous new cleaning regimes.

大流行后,可清洁性已成为高接触区域的首要考虑因素。清洁和消毒方案已大大增加了一天几次,并且所使用的清洁产品从一次性擦巾过渡至到漂白剂,酒精,和消毒剂。

HEWEI的创新技术可以保持物料的鲜艳色彩,柔软材质及坚固耐用的特质上,还足以承受严格的新清洁方案。

A large gray square with a diagonal cut from the bottom-left corner to the top-right corner, creating a white triangular area in the bottom-left.

ANTIBACTERIAL
抗菌

Conceived to inhibit the growth of bacteria and other microbes, and the materials can be easily maintained with alcohol-based cleaners and disinfectants, this portfolio provides perfect protection for demanding settings in healthcare, hospitality, corporate, and other high-traffic markets.

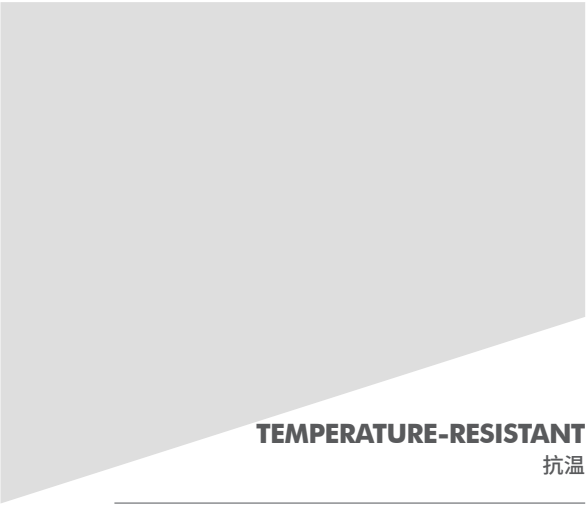

可抑制细菌和其他微生物的生长,物料可使用酒精类清洁剂和消毒剂轻松维护,可为医疗保健,酒店,企业和其他高客流量市场的苛刻环境提供完美保护。

A large gray square with a diagonal cut from the bottom-left corner to the top-right corner, creating a white triangular area in the bottom-left.

STAIN-RESISTANT
防污

Designed specifically for dynamic living, the materials features repellency and cleanability functions. It can prevent the contamination of ballpoint pens, red wine, sauces, denim dyes, etc., results in surface with beauty that lasts in the busiest of environments.

专为生活而设,物料中融合了拒斥性和清洁性功能。可防止圆珠笔,红酒,酱料,牛仔布染料等污积,可以使物件保持美观,并在最繁忙的环境中持续使用。

TEMPERATURE-RESISTANT
抗温

The material features temperature-resistant function, can stay comfortable in extreme weather. The texture and feeling also matches with the leather, which can ensure a considerate and comfortable seating experience.

物料可抵制温度变化,在极端的天气下亦能保暖防寒,并且性能上亦具备与真皮相符的触能,能确保座感体贴舒适。

A large gray square with a diagonal cut from the bottom-left corner to the top-right corner, creating a white triangular area in the bottom-left.

OUTDOOR
户外

Can be used indoors and outdoors. It repels water and withstand fading and spotting. Using patented technology, provides lasting beauty, no matter the season or forecast.

可以在室内及户外地方使用,有抗水,抗褪色,抗霉点功能。采用专利技术,无论任何季节或环境,物料都能提供不变的外观。

INTRODUCTION TO ROW CHAIRS (ENG)

排椅简介(ENG)

LC Series Public Seating

Public seating balanced with durability and comfort
Integral skin foam molding - provides the backrest with a tough outer layer, whilst still retaining a soft inner foam structure; creating a seat both durable and comfortable.

In addition, the backrest and seat are also fitted with a spring structure that supports the body and promotes an ideal seating posture. Design as public seating, airport seating, and lounge chair, for people across the globe, for living, working, and public use.

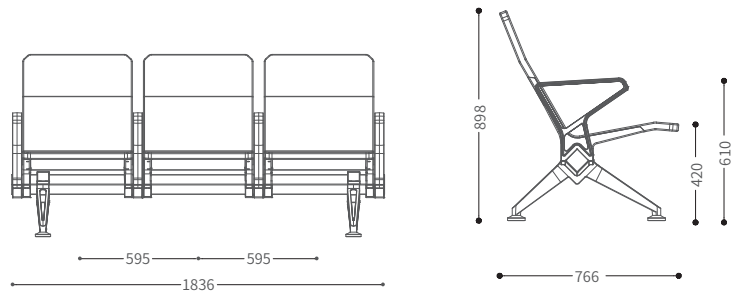

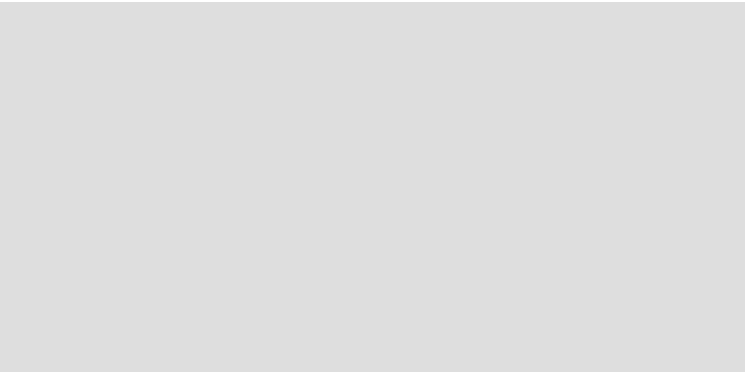

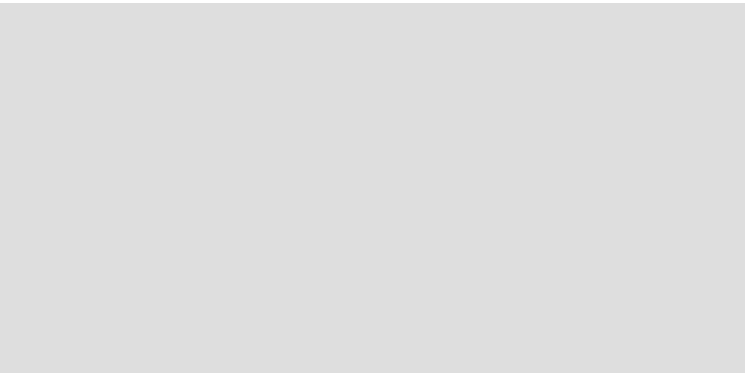

LC系列公共排椅

公共座位兼具耐用性和舒适性PU自结皮发泡成型-为靠背提供坚韧的外层, 同时仍保留柔软的内部泡沫结构; 打造既耐用又舒适的座椅。

此外, 靠背和座椅还装有弹簧结构, 该弹簧结构支撑身体并促进理想的就座姿势。设计为公共座位, 机场座位和休闲椅, 供全球人们居住, 工作和公共使用。

LC119

Sharp. Comfortable. The concept of the “119” is extremely categorical in efficiently meeting two basic requirements: a superior level of comfort and a high standard image

LC068

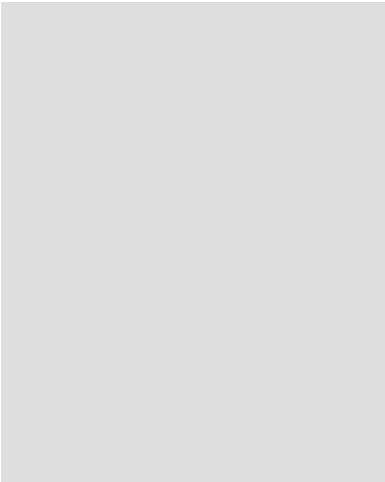

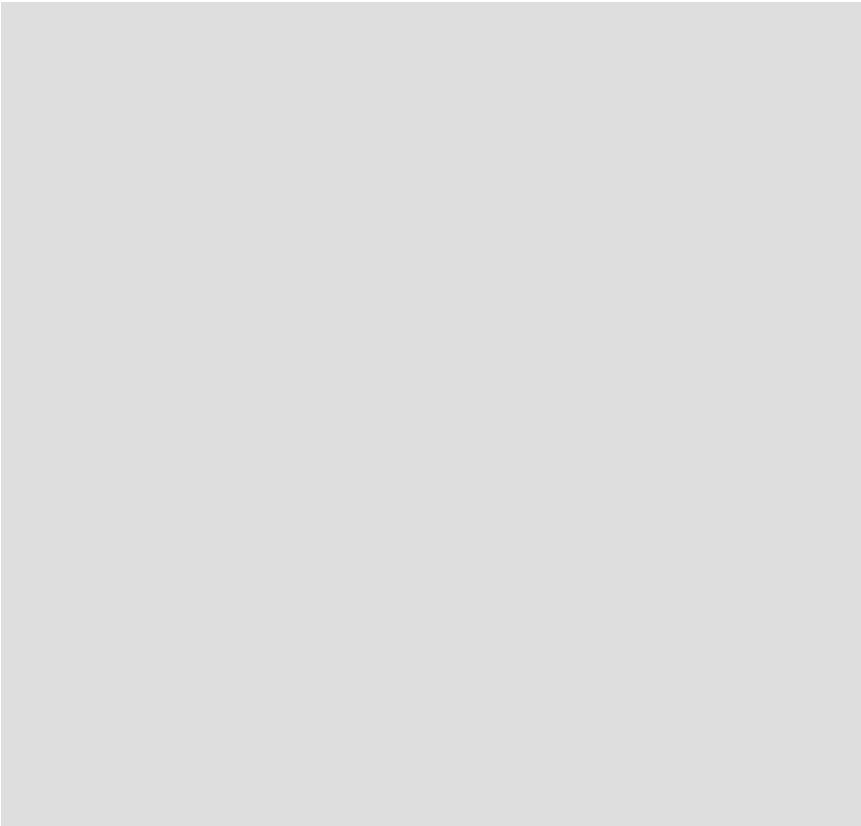

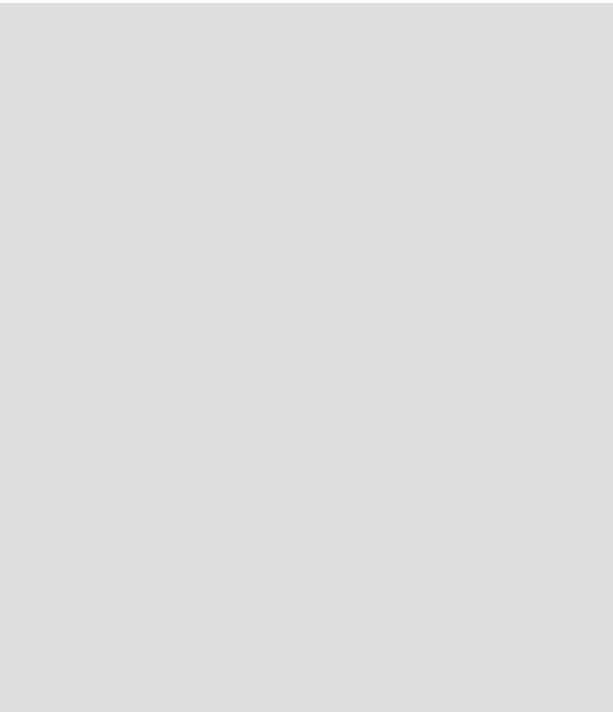

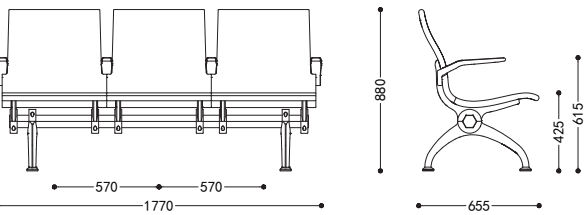

Discover new acuity. Sharp. Comfortable.

The seat&back made of integral polyurethane offers maximum comfort and strength.

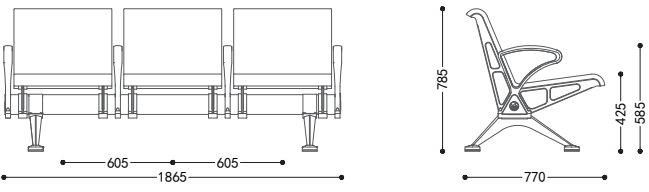

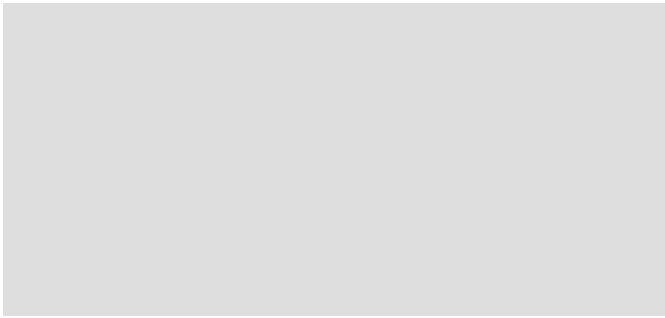

Colorful waterproof and fire- retardant: ideal for a public place.

Leg&armrest in aluminum high-pressure casting, with silver nano-coating, which the antirust ability is 4 times than the ordinary painted.

The concept of the '068" is extremely categorical in efficiently meeting two basic requirements: a superior level of comfort and a high standard image.

- Options**
- Available as 2,3,4 and 5 seat units
 - Armrests are optional
 - Polyurethane Table is optional
 - Fire retardant seat and back pads
 - Fire retardant seat and back pads
 - Easy to assemble and maintain

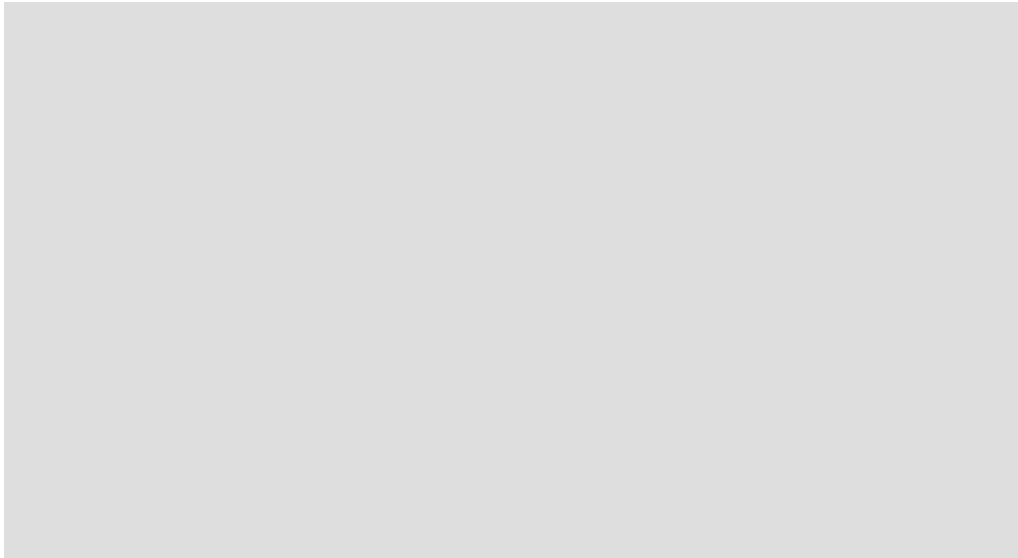

LC090

Sharp. Comfortable. The concept of the “119” is extremely categorical in efficiently meeting two basic requirements: a superior level of comfort and a high standard image.

Options

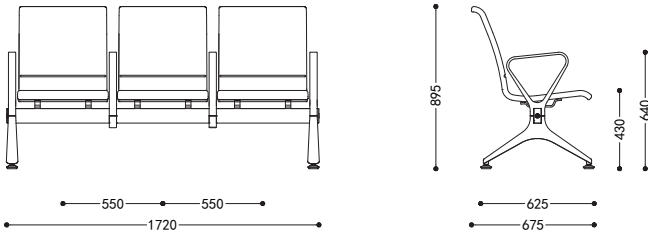

- Available as 2,3,4 and 5 seat units
- Arm rests are optional
- Polyurethane Table is optional
- Fire retardant seat and back pads
- Fire retardant seat and back pads
- Easy to assemble and maintain

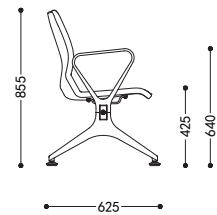

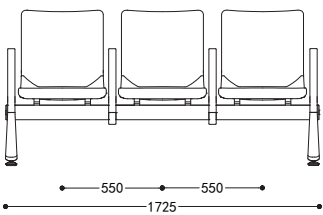

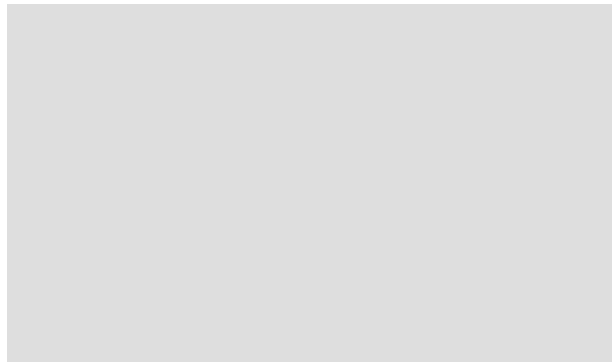

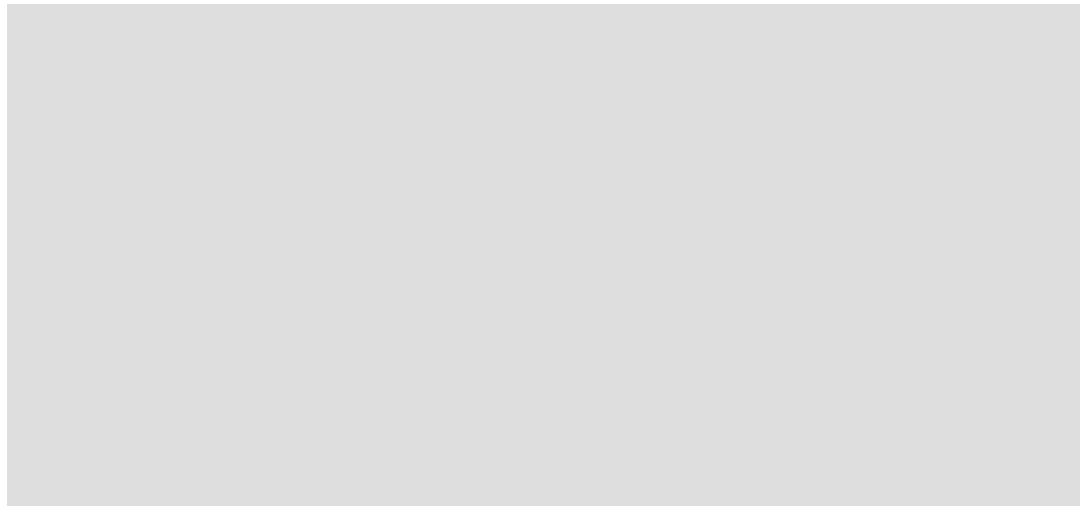

LC100

“100” system, the culmination of months of research, design, and development. The stylish appearance and flowing lines of the “100” beam seat also incorporate ideology ergonomics and offers long term, comfortable support.

With several customizable options, “100” is a highly demanding international installation, making it the premium choice for a discerning business wanting to make a long-lasting and positive impression.

LC099

“099” features clean visual lines and contemporary simplicity offering attractive, durable, and comfortable configurations. Seat and backrest adapt to the natural contours of the human form offering comfort for an long period.

Options

- Arm rests are optional
- Polyurethane Table is optional
- Fire retardant seat and back pads
- Fire retardant seat and back pads
- Easy to assemble and maintain

LC138

Superior comfort

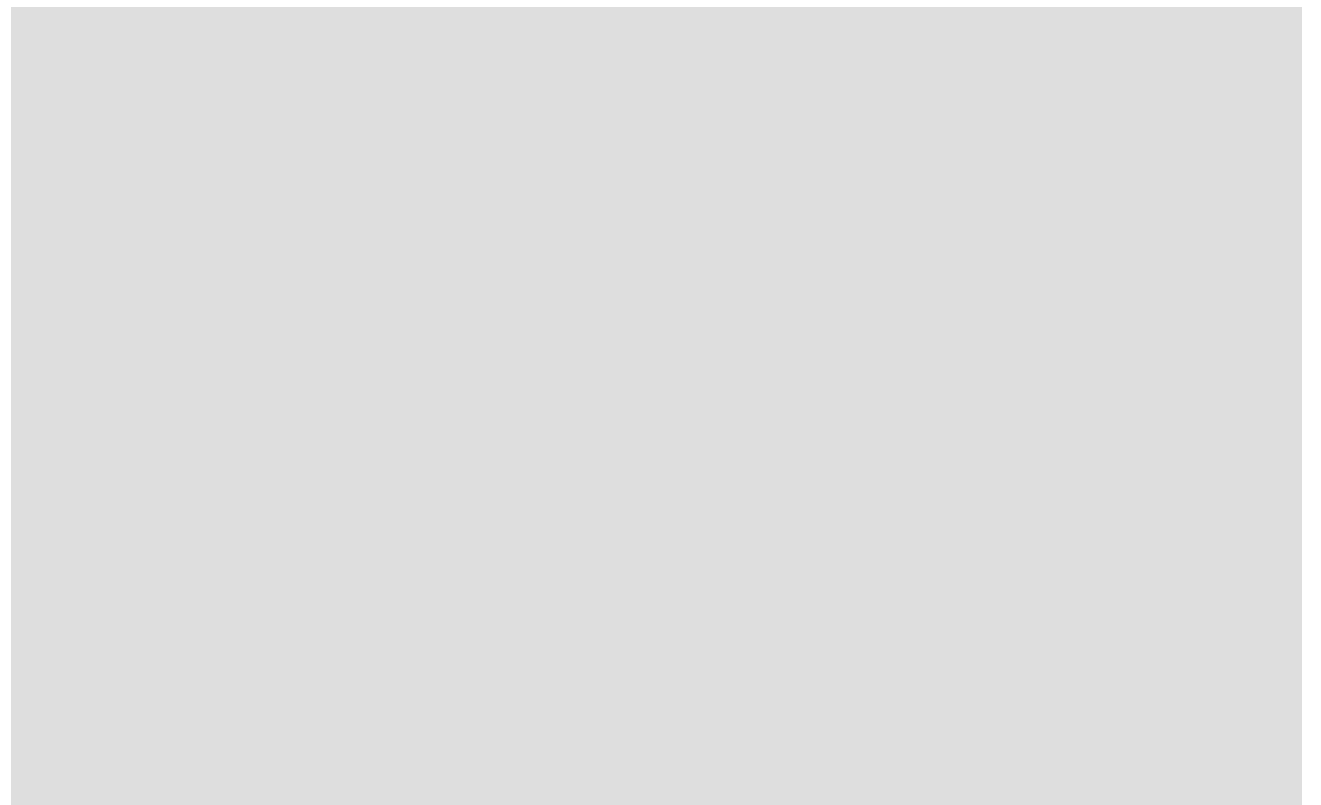

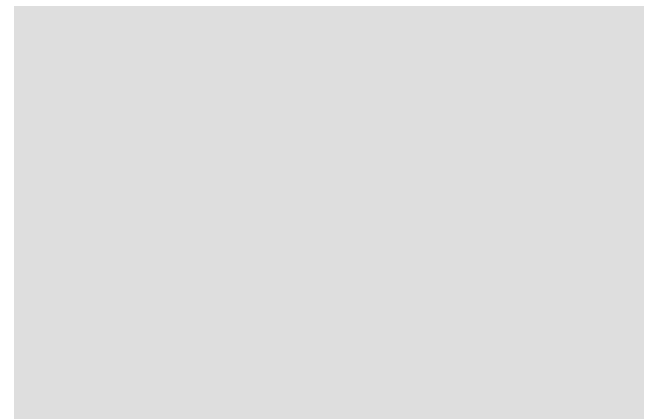

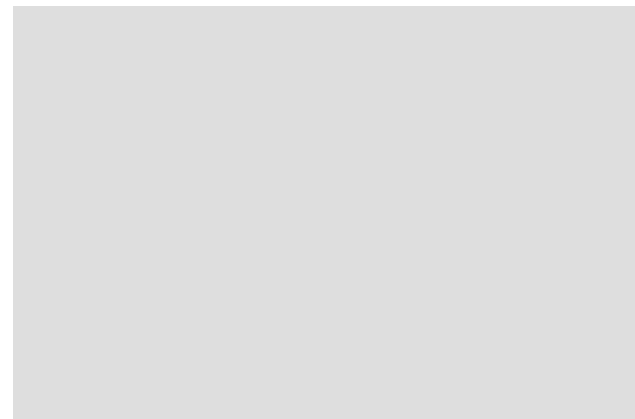

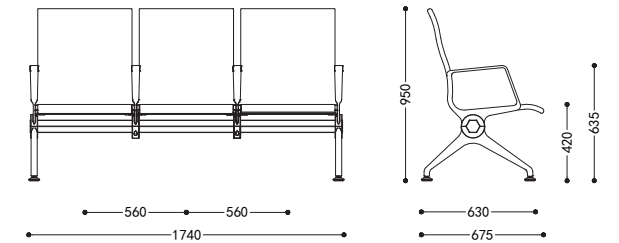

“138” innovative construction, which features cantilever seats, offers users superior comfort, even when they have to sit for a long period.

Easy to maintain

The individual seats, which only need four screws to be secured to the crossbeams, can be replaced quickly and easily if needed.

Durability

The seat is made of polyurethane foam which is extremely robust and resists erosion and tears.

INTRODUCTION TO BAR CHAIRS AND DINING CHAIRS (ENG)

吧椅及餐椅簡介(ENG)

BC & DC Series

Seating for all the uses offer fresh options for informal spaces, such as coffee shops,bars, or meeting areas.
