PROFILE

* Jiangmen Hongjin Electronic Commerce Co., Ltd is a company of professional production, export and sale in domestic market, which was established in 2009 and it is located in Taoyuan Town, Heshan City, Guangdong Province. We have about 150 workers and cover an owned area of about 20000 square meters.

* We mainly manufacture outdoor products, including folding gazebos, car tents, sun umbrellas, mini umbrellas and so on, which are mainly available for outdoor activities and advertising. To satisfy the changing demands of customers, we innovate and add new products, also improve product quality based on our steady technology. We have built up good business relationship with the companies both in China and foreign countries, also have exported to many countries in Europe, America, Southeast Asia, Middle East and so on.

* We always insist the principle of "Quality first, customers first", and we are also strict in production and management, our factory has passed authentication of Sedex, ISO9001 to make sure we can provide best service and products to our customers.

* Our future goal is to continually improve our product quality and expand more markets, hereby we warmly welcome the customers from all over the world to visit our factory and hope we can create a long standing win-win cooperation.

Premium Riplock Fabric

The gazebo canopy is made of riplock material, which is more durable than normal fabric, not easy to be torn by bad weather, designed to keep your covered all season long.

- Place shelter in center of area to be sheltered. remove cover, have 2 people stand on opposite site sides. grasp two outer legs, lift off of ground and step backwards stopping at arms length.
- Grasp the bottom of the diamond (shown) , on opposite sides. lift up, and step backwards until shelter is fully opened, being careful not to pinch fingers.
- Each person should move to middle leg of 20 side side. Grasp at bottom of diamond (shown), lift up and step back-wards at the same time until shelter is fully opened, being careful not to pinch fingers at end of truss.

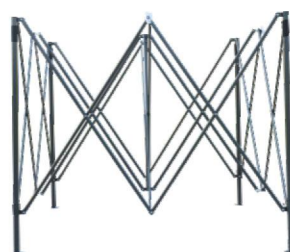

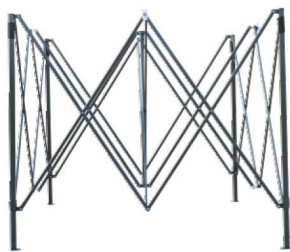

- Engage the auto slider at each corner by pushing up with one hand while holding down top of leg with the other hand. Snap Button with engage in groove. Repeat on all other legs.
- Lift two adjacent outer legs up and pull out the inner legs until snap locks. Repeat on all legs. Raise or lower the shelter using adjustment holes found near bottom of each outer leg.

IMPORTANT

- **WINDY CONDITIONS:** Use stake kit or weight bag set.
- **HEAVY WIND:** Take Shelter down.
- **WET FABRIC:** Let shiter dry before closing.
- **STORAGE:** Use cover bag when not in use.
- **CLEANING:** Use mild detergent and water.
- **RAIN:** Do not leave shelter unattended.
