High Speed Syringe Production Line

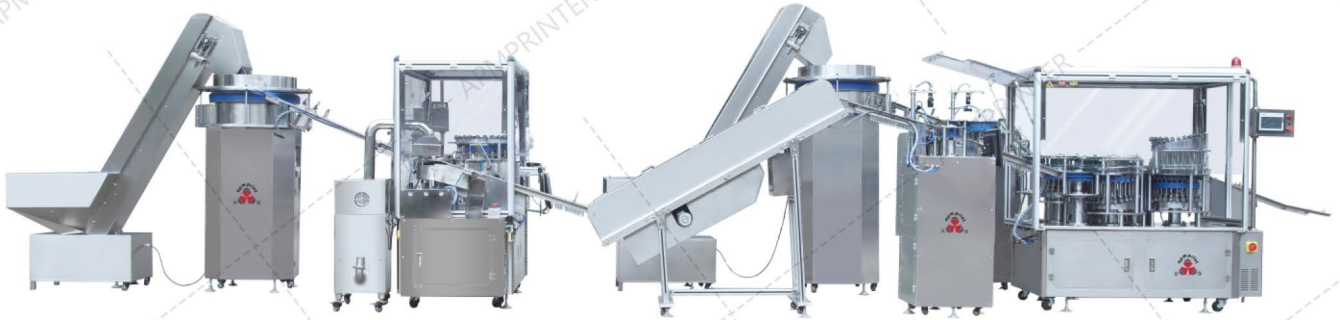

One-Stop Solution

- Screen Printing Machines, Roller Printing Machines
- Assembly Machines
- Automatic Packing Machines

Syringe Printing + Assembly + Packing Machine

注射器印刷+组装+包装

● Tech-data 技术参数:

Producing Range:	1ml	2~3ml	5ml	10ml	20ml	50ml
Producing Speed:	300~330	300~330	300~330	240~260	220~240	140~160

● Description:

The complete equipment, including printing machine, detecting system, assembly machine, each controlled by respective and independent PLC. The three parts not only mutually independent (one needs maintenance, others still work), but also connected (any material shortage of one machine could stop the equipment running).

● Blister Packing Machine

Fully Automatic Blister Packing Machine is a highly economical solution that guarantees high production efficiency with the least amount of product and material waste. It is designed for the quickest changeover, the highest efficiency with all kinds of packaging materials.
