Application Guide

01 Trim the nails.

02 Clean your nail surface.

03 Apply base coat and cure it.

04 Remove the nails form and put it on the nails.

05 Apply quick extension gel and cure it.

06 Peel off the nails form.

07 Polish and shape nails.

08 Apply top coat and cure it.

09 Results show.

How to remove our builder gel?

1.Firstly use a nail drill to thin out the gel builder layer.

2.And if the nails are long, it's advisable to trim them down.

3.Soak a cotton ball and acetone, spread on the gel and wrap the nail for a few minute.

4.And then gently peel it off with a cuticule pusher.

5.Finish.

2 IN 1 GEL BUILDER
