Alpha-210 Double Wheels Grinder and Polisher

Alpha-210 is an 10" (254mm) disc diameter, double disc, double control grinding and polishing machine. The machine is small in size, compact in structure and easy to operate. Adopting the popular touch panel, it is especially suitable for grinding and polishing of various specimens.

Features:

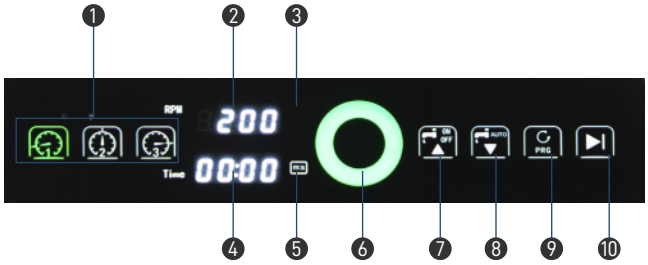

- Using servo motor， maintain high torque even at low speed;
- Using glass touch panel, simple to operate and easy to use;
- Adopts fully sealed design in the working tray, no water will leak into the equipment even if there is water inside the tray;
- Retractable faucet for easy cleaning and washing;
- No tools are needed to disassemble the working plate, and the disassembly is extremely convenient;
- ABS molded shell, small and beautiful, high strength.
