AIBORT PERFORMANCE SOLUTIONS

FROM IDEA TO PRODUCT

A controlled process from first concept to finished teamwear.

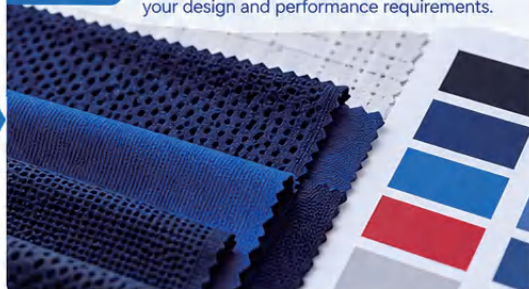

01 BRIEF & DESIGN

We start with your goals, team identity and performance needs, translating ideas into creative designs.

02 FABRIC & COLOUR SELECTION

Choose from a wide range of high-performance fabrics and a rich colour palette to match your design and performance requirements.

03 DIGITAL DEVELOPMENT

We refine your design with accurate digital tools, including technical specifications, panels and artwork ready for sampling and production.

04 SAMPLE FITTING

We produce samples to check fit, comfort, materials and details, making adjustments until everything meets your expectations.

05 PRODUCTION & IN-LINE QC

Your teamwear goes into production with skilled workmanship and regular in-line quality checks to ensure consistent standards across every order.

06 FINAL INSPECTION & DELIVERY

Each garment is carefully inspected for quality, accuracy and consistency, then packed and prepared for reliable, on-time delivery to your team.

QUALITY CONTROL & PERFORMANCE ASSURANCE

A reliable end-to-end quality system to deliver consistent, high-performance sportswear for teams across Europe.

01 | MATERIAL & COLOUR CONTROL

FABRIC & COLOUR CONTROL

Verify fabric quality, weight, composition and colour consistency before production.

02 | IN-LINE QC

IN-LINE QC

Continuous quality checks during cutting, sewing and assembly to ensure consistent standards.

03 | 20 WASH CYCLES

20 WASH CYCLES

Test washed up to 20 cycles to evaluate colour fastness, dimensional stability and overall durability.

04 | FINAL INSPECTION

FINAL INSPECTION

Complete garment check on measurement, stitching, appearance, functionality and overall workmanship.

EUROPEAN TEAMWEAR QUALITY SYSTEM

From raw materials to final packing, every step is controlled to ensure consistent quality, reliable performance and long-lasting teamwear for the European market.

AQL INSPECTION

AQL-based inspection on finished garments to ensure consistent quality levels before shipment.

TRACEABILITY

Batch and production traceability for fabric, trims and finished garments throughout the process.

LOGO / DECORATION TESTING

Test printing, heat transfer, sublimation, embroidery and other decoration methods for wash resistance and long-term performance.

PACKING CONTROL

Check folding, polybag, labels, size breakdown and carton packing to ensure safe and accurate delivery.

PROFESSIONAL.
FLEXIBLE.
RESPONSIBLE.
TOGETHER.

AIBORT PERFORMANCE FABRICS

FABRIC & PERFORMANCE

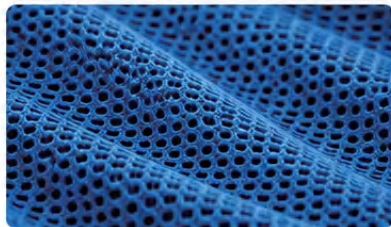

The right fabric shapes every movement.

A considered range of performance fabrics for training, competition and everyday teamwear.

LIGHTWEIGHT

Light construction for agile movement and lasting comfort.

BREATHABLE

Knit options designed for airflow and moisture management.

JACQUARD

Integrated texture and visual depth for a premium look.

STRETCH

Flexible comfort for dynamic movement.

DURABLE

Dependable fabrics for regular team use and long-lasting wear.

WARM & PROTECTIVE

Fabric options for cooler conditions and outdoor activity.

FABRIC SELECTION FOR EVERY PERFORMANCE LEVEL

Different sports and conditions demand different fabrics. Our range is developed to give teams the right balance of comfort, function and durability at every level.

WEIGHT

Choose from ultra-light to midweight fabrics depending on sport, season and activity level.

STRETCH

Knit structures with different stretch levels for comfort, mobility and a consistent fit.

BREATHABILITY

Engineered to support airflow and help manage moisture during training and competition.

STRUCTURE

A variety of knit constructions including smooth, mesh and jacquard for the right look and performance.

DURABILITY

Selected for resistance to regular use, washing and the demands of team sport.

WEATHER PROTECTION

Options for cooler conditions, with fabrics that help retain warmth and protect in outdoor environments.
