

Calcium Carbide:

Size	Gas yield (20℃ 101.3 Kpa) / L/kg	Particle Size Qualification Rate /%	PH3 /% (V/V)	H2S /% (V/V)	Powder Proportion /%
80-120mm	≥295	≥90	≤0.04	≤0.06	≤1
50-80mm	≥295				
25-50mm	≥295				
15-25mm	≥285				
7-15mm	≥270				
4-7mm	≥260				
2-4mm	≥240				
0-2mm	≥180				
More size	Support Customized				
Quality Standard	TYWH Quality Standard				

Analysis Basis:

Through a large amount of precise sampling, we ensure that the quality indicators of the entire batch of goods are accurately and comprehensively reflected, providing a reliable basis for our continued supply of high-quality calcium carbide.
