

# F Series Fiber Laser Marker

High precision, high speed, permanent traceability marking solution

CE Laser product complies with CE standard

# QBODE Fiber Lasers

F2010, F3010, F5010

## Accurate Marking Solution for high-speed production

QBODE Fiber laser marking machine is designed to meet the needs of manufacturers who use robust, high density materials on medium-speed or high-speed production lines.

## Product Features

- **Increase the efficiency** - High accuracy, high speed, and highly integrated main board ensure the outstanding performance and quality of the laser printer, user friendly system with the embedded 10.1-inch controller makes it easy to read and use.
- **Flexible in installation** - The key to the F-Series flexibility is a smaller scan head, connected to the laser tube on a multi-position mount. The head can be rotated through 90 degree steps to allow for many mounting positions, and because it is so much smaller, it can easily fit where bigger lasers cannot..
- **Cost efficient**- The fiber laser is consumable-free and virtually maintenance-free, has long-life laser sources, and minimal maintenance, i.e.subsequent costs are low.
- **Well protection**- Its aluminum and stainless steel construction gives you lasting performance in the harshest environments.

## Application Range

Hardware, electronic components, IC, plastic products (chargers), gold and silver jewelry, etc.

## Industries

Hardware accessories, food, beverage, pharmaceutical, electronics, tobacco, chemical, auto parts and other industries.

## Product Parameter

Customized services can be provided for special industries and applications.

PRODUCT TYPE		FIBER LASER PRINTER		
ITEM	MODEL	F2010	F3010	F5010
Laser Machine Feature	Machine material	Aluminum		
	Laser	Fiber laser generator		
	Output power	20W	30W	50W
	Laser wave length	1064nm		
	Marking speed	≤10000mm/s		
	Main control system	10.1inch controller, system based on Linux		
	Cooling system	Air-cooled		
	Marking scale type	Raster font, vector font for choosing		
Laser Marking Parameter	Min.line width	0.012mm		
	Repeatability accuracy	< 2urad		
	Working area	100*100 (Optionally available)		
	Positioning	Red light positioning and double red light focusing		
	Power	AC100-240V 50/60Hz		
	Power Consumption	500W		800W

## Print Capabilities

**Character**  
 (Typical examples)  
 0123456789  
 ABCDEFGHI

**Logo mark**

**2D code**

**Graph**

**Image**

**Barcode**

## Product Dimension (mm)

**ZHUHAI QBCODE TECHNOLOGY CO., LTD.**
