Super Flexibility and Bendability

The soft module adopts super flexible substrate material, which can be bent at large scale and is suitable for installation needs of irregular shape.

Various Pixel Pitch Optional

P1.2, 1.5, 1.6, 1.8, 2 and 2.5 small pixel pitch available to choose. Even at a close viewing distance, the viewing effect is a visual feast and there is no graininess. Suitable for viewing in vaults such as indoor exhibitions, science and technology museum, art museum, etc.

Advertising Machines of Various Shapes

In addition to the S series advertising machines, we can also make advertising machines in wave arc, and ribbon shapes according to customer needs and preferences. Each module is seamlessly connected, and even the curved parts are very flat.

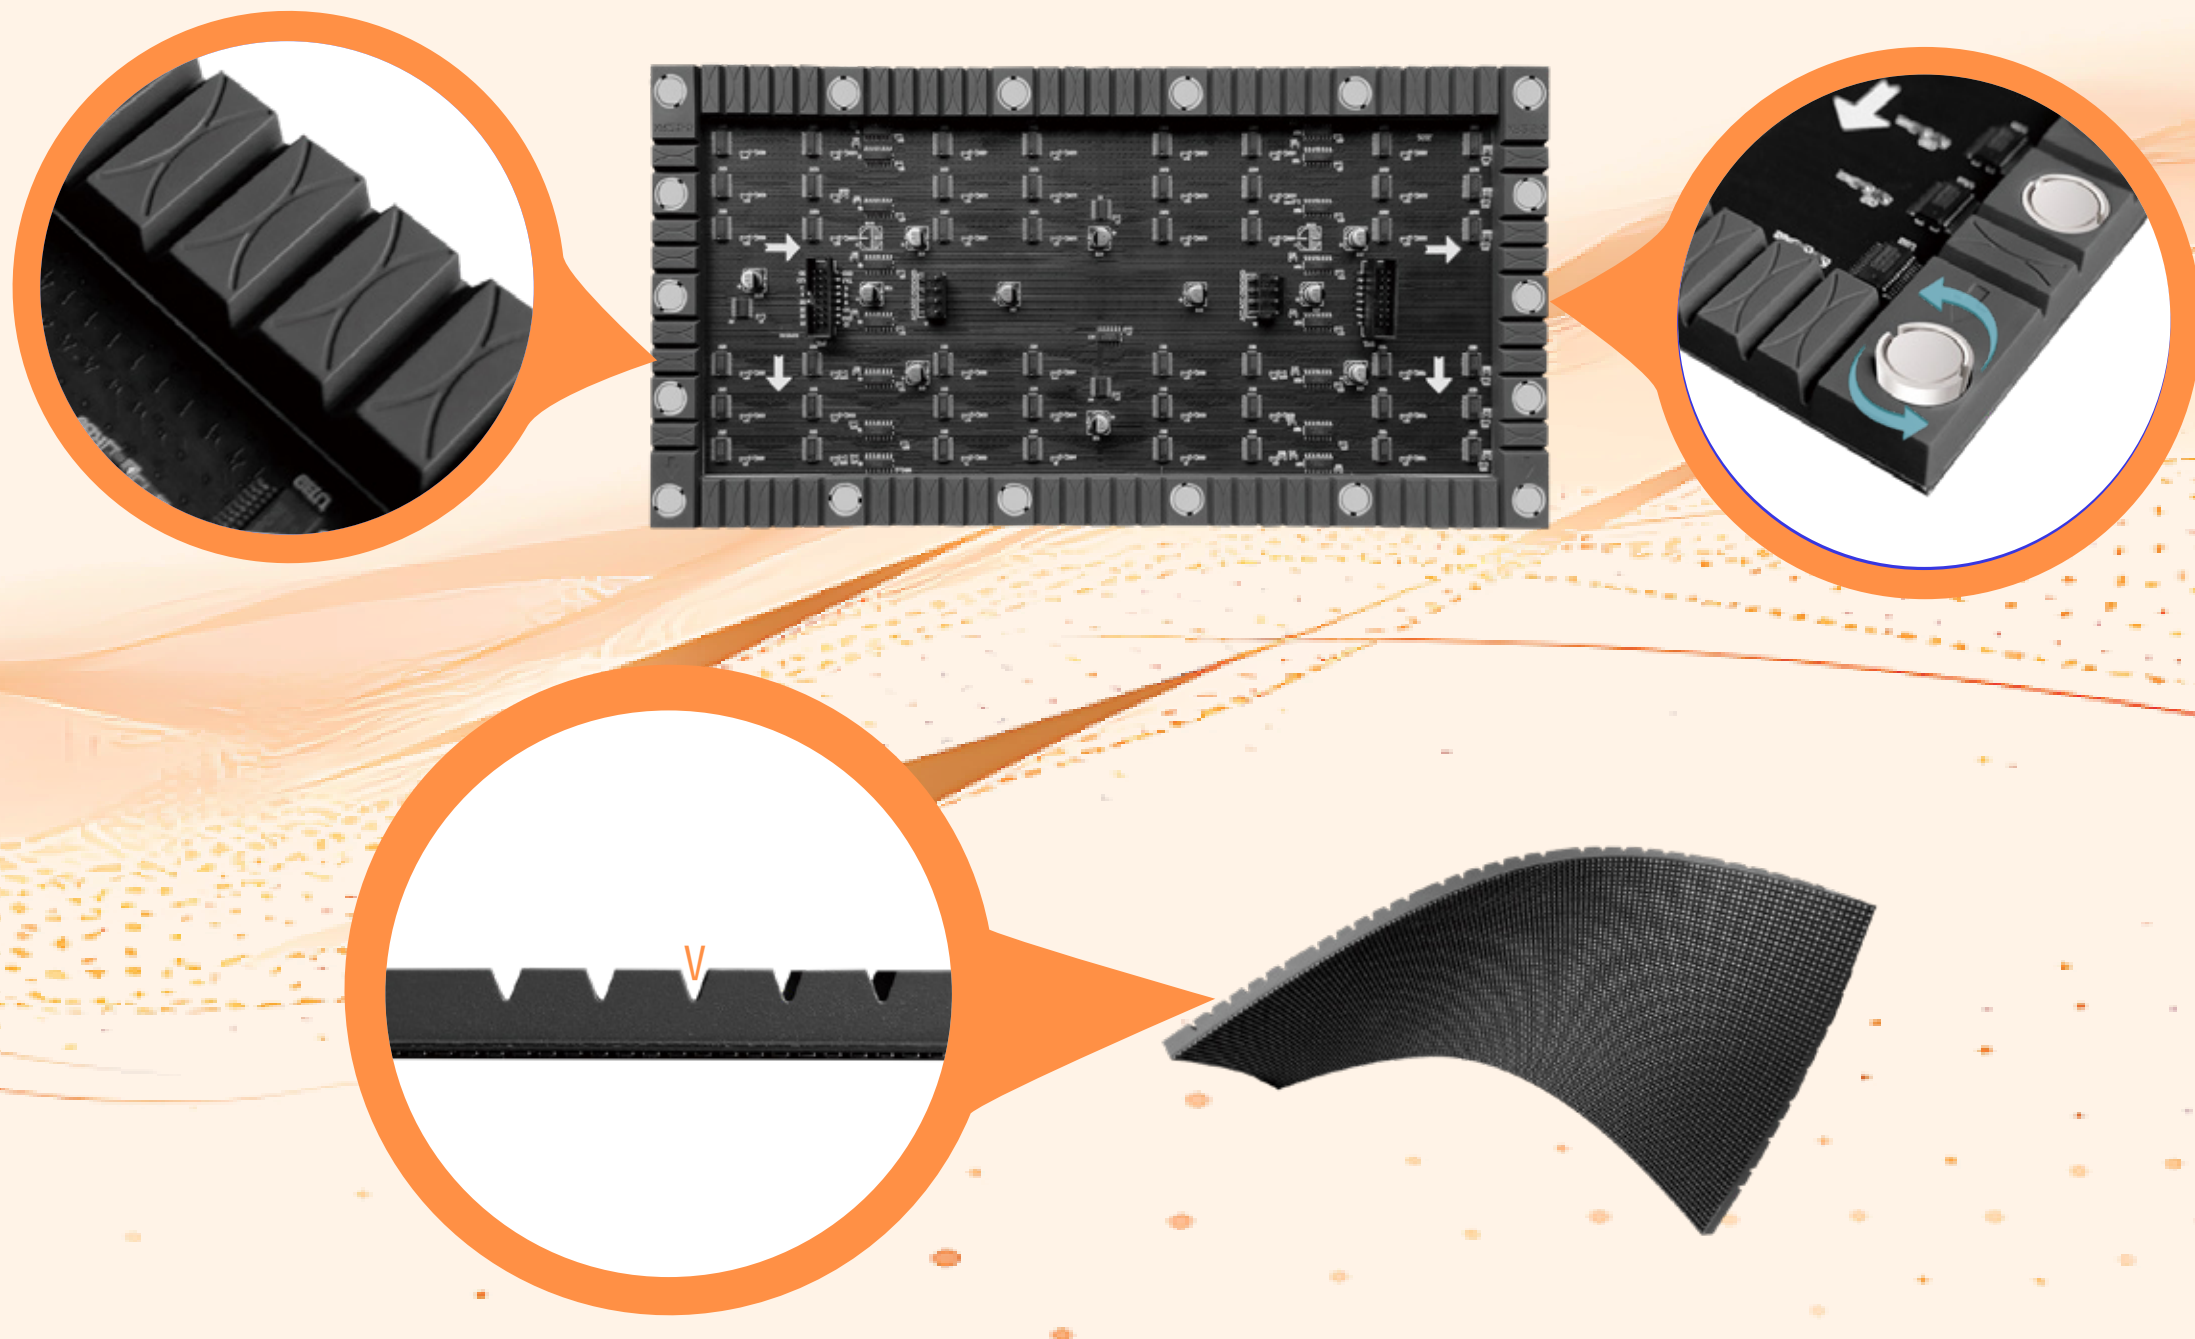

Lightweight, Portable and Removable

Modules are lighter than ordinary non-soft modules. It can be used in occasions that require quick construction and disassembly, such as exhibitions, events, etc.

Strong Magnetic Force

The use of high magnetic force, so that the module is better attached to the cabinet above, no matter what the environment is not easy to deglue, warping feet. The V-shaped design can better increase friction and viscosity. Fine-tuned magnets ensure module flatness. X-design highlights visual beauty. Deep V design makes the module softer.

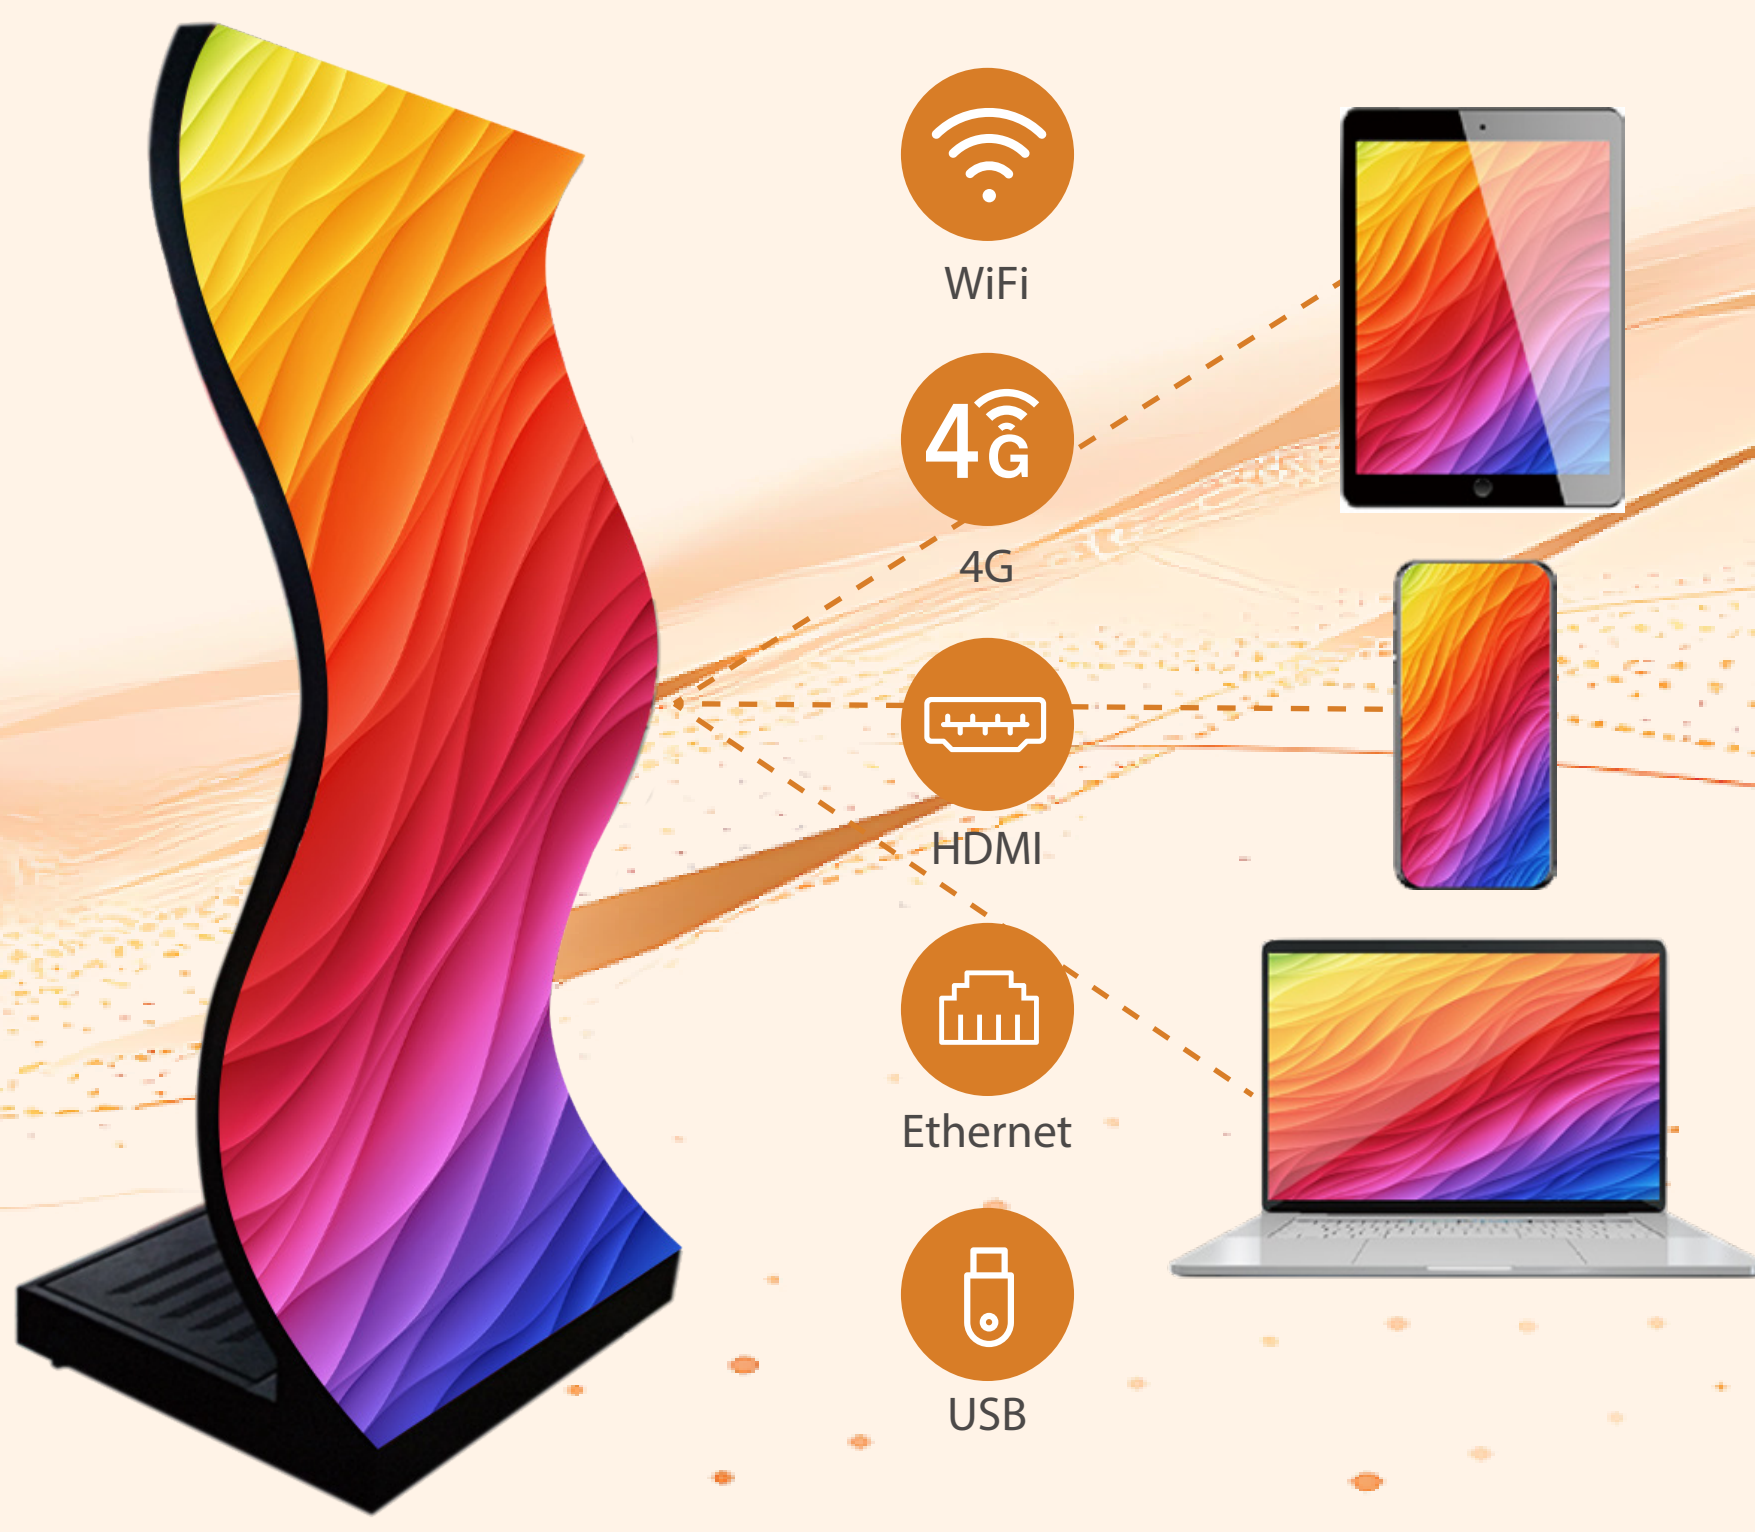

Installation Method

It supports vertical and horizontal installation, with wheels, which is easy to move, can be used in multiple places. Two size available for choose, 600×1920mm and 720×1920mm and also can be customized as you like.

Fast Using

No component installation. Just connecting socket and video controller. Supporting wifi, 4G and quickly control the screen through mobile phone and computer. Play whatever you want.

Visual Appeal

Different from conventional advertising poster, the unique shape and design make it more visually attractive, and the S-shape can create a three-dimensional sense, making the advertising content more hierarchical and dynamic.

Parameters

Model	SPOSTER 1.2	SPOSTER 1.5	SPOSTER 1.6	SPOSTER 1.8	SPOSTER 2	SPOSTER 2.5
Pixel Pitch(mm)	1.25	1.579	1.667	1.875	2	2.5
Pixel Matrix Per Sqm	640,000	401,076	359,856	284,440	250,000	160,000
Pixel Configuration	SMD1010	SMD1010 / 1212	SMD1010 / 1212	SMD1212 / 1515	SMD1515	SMD1515
Brightness (nits)	≤1000	≤1000	≤1000	≤1000	≤1000	≤1000
Scan	1/48	1/38	1/36	1/32	1/30	1/24
Power Con. (W/sqm.)	Max. 1000W / Avg.340W	Max. 1000W / Avg.340W	Max. 800W / Avg.270W	Max. 800W / Avg.270W	Max. 800W / Avg.270W	Max. 800W / Avg.270W
Refresh Rate (HZ)	≥3840	≥3840	≥3840	≥2880	≥2880	≥1920
Module Dimension	240×120mm / 0.79×0.39ft					
Cabinet Dimension	600×10920 / 1920×600 (W×H)					
Cabinet Material	Silicon Rubber Soft Bracket					
Cabinet Weight	60KG					
Service Access	Full Front Access					
Grey Scale (bit)	14					
Contrast Ratio	5000 : 1					
Viewing Angle (H / V)	140° / 140°					
IP Rate	IP43					
Operation Temperature	-20℃ ~ +60℃					
Input Voltage (AC)	110 or 240V
