## IMPORTANT SAFEGUARDS

When using electrical equipment, basic safety precautions should always
be followed including the following:
READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. To avoid the possibility of electrical shock, turn off power supply before
   installation or servicing. Installation and servicing should be performed
   by qualified personnel.
2. When closing cover of fixture, be sure all wires are inside housing to
   avoid pinching wires.
3. If Photo Receptacle is installed refer to "Photo Control" section for
   instructions.
4. Product must be installed in accordance with your local electrical code.
   If you are not familiar with these codes and requirements, consult a
   qualified electrician.
5. Do not change the structure or any commponents of the fixture to
   ensure safety.
