Stainless Steel Metal Strap Banding Tool Kits

with Strap and Buckle

Product Drawing

Product Description

Stainless Steel Strapping Band:

Materal: S304 Stainless steel.

Dimension: Width 3/4" x Length 100 Ft x Thick 0.03''.

Strength : 1700lb break strength.

Long-lasting & Durable & Strong toughness.

Oxidation resistance, corrosion resistance, anti-rust, fire and heat resistance, etc.

Banding Tool:

Can cut strapping band in width up to 1" and thick up to 1/20".

Made of Steel with high hardness, thoughness and temperature resistance, anti-rust and fire proof, secure long life.

Ergonomically designed to easily grip, tension and cut cord strapping, which has a higher degree of tightening.

Stainless Steel Ear-Lokt Buckles:

Material: S304 Stainless steel.

Used for 3/4" wide steel banding, 100Pcs.

Durable, Anti-rust, fire and heat resistance.

Unique tooth design: prevent the stainless steel strapping from slipping and losing tension.

Smooth surface: no burr to avoid hurting your hands.

Product features

- Durable, rust proof, fire-resistant, and heat-resistant.
- Excellent rust prevention and corrosion resistance.
- Can be used in humid environments with high humidity and leakage.
- High tensile strength and excellent oxidation resistance.

Application

Widely applied in industrial manufacturing, banding, maritime ships, rail transit, ship packaging and other industries.

Technical Specifications

Product Parameters

Project	Technical indicators		
Product name	Stainless steel strape	Banding Tool	Stainless steel buckle
Processing technology	Cutting+rolling board	Stainless Steel	Stamping
Overall weight	5.5kg	1.76 KG	13.3g
Size	Width 19mm, thickness	Customized Size	Width 28.5mm, thickness 1.5mm
Application	Overhead Line Accessories	Overhead Line Accessories	FTTH FTTB FTTC
Packaging requirements	5 discs/piece	1 piece	1500 pieces/box
