Fix Plate Fiber Optic Patch Panel

Product Drawing

Product Description

Fix Plate Fiber Optic Patch Panel is High quality cold rolled sheet forming, electrostatic powder spraying technology, smooth surface, not east to rust. High strength sheet metal, long-term using is not easy to deformation. Fiber Patch Paneledges of metal parts are designed with rounded corners to avoid damage to cables. The bottom plate is designed with sliding design, for the patch panel already installed on the cabinet, the wiring can be adjusted without removing the patch panel.

Product features

● Supports multiple fiber types and connectors, with good compatibility.
● Compact product design, small footprint, suitable for various installation environments.
● Made of high-quality materials, effectively protecting optical fibers and ensuring stable transmission of fiber optic signals.

Application

FTTH .

CATV.

Data center.

Telecommunications networks and communication systems.

Technical Specifications

Product Parameters

Project	Technical indicators
Product name	Fix Plate Fiber Optic Patch Panel
Type	19inch Fixed Type
Material	Cold Rolled Steel
Max Capacity (Core)	48
Adapter	SC/FC/LC/ST
Color	Black
Working Temperature	-40~+85°C
