

16 port Fiber Distribution Box

Product Drawing

Product Description

16 port Fiber Distribution Box fiber access termination Box is able to hold up to 16 subscribers and 24 splicing points as closure. It is used as a splicing closure and a termination point for the feeder cable to connect with drop cable in FTTX network system. It integrates fiber splicing, splitting, distribution, storage and cable connection in one solid protection box.

Product features

- Drop cable Plug-and-play, requiring no splicing.
- No need to open the box when connecting the FastConnect drop cables.
- UV-blocking high-performance materials.
- Wall-mounting, pole-mounting, and aerial installation modes.
- Faster cable routing and sealing module make installation efficient.

Application

FTTH, CATV.

Local area networks.

Data communication networks.

Wall mounted for indoor and outdoor application,

Technical Specifications

Product Parameters

| Project | Technical indicators |
|----------------------|--------------------------------|
| Product name | 16 port Fiber Distribution Box |
| Material | ABS |
| IP Protection | IP65 |
| Size | 208*241*117mm |
| Max Capacity | 16Core |
| Inlet Port Diameter | 3mm |
| Outlet Port Diameter | 7-12mm |
| No. of Adapter/Port | 16 |
| Suitable Adapter | SC |
