

## What should I offer to get your mold quotation?

If you have a new project and you want us to make the injection molds for you, as well as to produce the injection molding parts in bulk. What should you prepare to get our quotation?

Below quotation sheet is very clear, we will write down all these information, so you can have a very detailed information about the mold steel, mold cavity number, runner type, mold lead time, mold size and weight, injection molding cycle time, injection molding machine tonnage, bulk order lead time and so on.

First you need send us your design drawing (3d drawing and or 2d drawing), then tell us all information painted in yellow. For green color, if you know then type it as well, if you don't know then we can recommend the most suitable for you.

For more information please contact us.
