机械强度测试报告 Mechanical strength test report			
产品名称 (Product Name) :	SLB	产品料号(Product Part Number):	/
订单号 (Order Number) :	/	机种编号(Model number):	
测试数量(Test Quantities):	1	测试日期 (Test Date) :	2024/10/14
测试仪器(Test Instrument):	承重测试架 load bearing test stand	灯具重量 (Light weight) :	26.88
试验目的 (Purpose of testing)	检验灯具最大承重性能 Test the maximum load-bearing performance of the fixture.		
测试方法 (Test Method)	1、将灯具安装在承重测试架，用螺丝锁紧。 2、将相同重量的砝码放置于灯体上。 3、承重时间为96小时。 1、Mount the fixture on the load bearing test stand and lock it with screws. 2、Place the same weight on the fixture. 3、The load-bearing time is 96 hours.		
测试样图 (Test Image)			
检测标准 (Test Standard)	根据灯具重量，用10倍的砝码叠加在灯体上，96小时后，灯体无变形，无摔落。 According to the weight of the fixture, with 10 times the weights stacked on the lamp body, 96 hours later, the lamp body without deformation, no fall.		
测试结果 (Test Results)	外观(Apperance)	测试前 Before testing	测试后 After testing
		灯体表面完好 The surface of the fixture body is in good condition	Ok
		产品及各部件完好 Product and components are in good condition	OK
	功能(Function)	全部功能OK All functions are OK	OK
结论 (verdict)	<div><input checked="" type="checkbox"/> 合格 (Pass)</div> <div><input type="checkbox"/> 不合格 (NG)</div>
