## company culture

Company philosophy: help customers save costs, increase productivity, and improve the production environment.

05

## Summarize

Let the world fall in love with Made in China.

## **PART ONE**

# **COMPANY PROFILE**

we are the partner of your productivity improvement, customized.

---

**01**

# 01 COMPANY PROFILE

Shijiazhuang Tengdi Machinery Co., Ltd. integrates R&D, production, sales and service.

Factory area: 8000 square meters.

Company personnel: 50.

Engineer team: 10 engineers, 3 senior engineers.

Sales and operations Team: 10

A total of 30 workers, two joint ventures.

Following the concept of independent innovation, the Tengdi team has designed a series of production lines that are easy to operate and maintain.

This is just a small part of the reasons why customers trust Tengdi.

## Tube Mill

**Type:** ERW & API steel pipe mills, stainless steel pipe mill, , spiral welded pipe production line, etc.

**Diameter specifications:** ranging from 8mm-3400mm.

**Non-standard customization according to different needs.**

## Strip Processing Equipment

**Types include:** Slitting Line, Cutting to length Line, Cold Rolling Mill, Pickling line, Cranes etc.

## Forming Machine

**Heavy-duty specifications:** High way profile, heavy C&U steel, various special profiles, etc.

**Small specifications:** cable tray, small warehouse shelves, photovoltaic brackets, CZ steel.

## Auxiliary Machine & Spares

**Auxiliary machines:** Ends facer, Hydrotester, H.F. Solid State Welder, Threading machine, Automatic stacking machine, etc.

**Spare parts:** Rollers, shafts, gears, saw blades, impders, etc.

## COMPANY & MARKET HISTORY

**2000**

**Broaden the domestic market**

The first 10-inch API pipe making machine was successfully operated, equipped with 1850×8mm slitting line.

**2008**

**The TD team was established.**

We exported the second domestic cold saw to foreign countries.

**1993**

**First entry into the steel pipe industry**

Became the first batch of core members of China's welded pipe machinery industry.

**2006**

**International Business**

Technological innovation, China's manufacturing gradually reveals its advantages

**2006 to present**

**Exhibition + Network Marketing**

At the same time, the improvement of direct forming technology and the maturity of steel pipe stacking technology.

### Total performance

The total performance in 2022 is 40 million yuan for tube making line.

### Iteration of technology

Every year, TENGDI invests 60% of its total profits in technology research and development.

### Service improvement

Participate in exhibitions and visits, customer training and technical services.

### Outlook for 2023

With the Chinese policy, we set the target at 80 million RMB.

### Expand the team

Enhance team capabilities and enhance employee happiness and sense of belonging.

## **PART TWO**

# **PRODUCT DESCRIPTION**

# 02

TENGDI mainly exports various equipment and related accessories required by steel pipe producers and steel processing plants.

---

Tube Mill

Cut to length Line

Slitting line

### 10" Tube Mill, 1850 x 6mm Slitting Line

And it also includes 3-inch, 4-inch, 6-inch tube mills, as well as more than a dozen production lines of their high-frequency, cold saws, spare parts, etc.

## Combined slitting and cut to length line, with slitter quick change 2000x 12.7/16mm

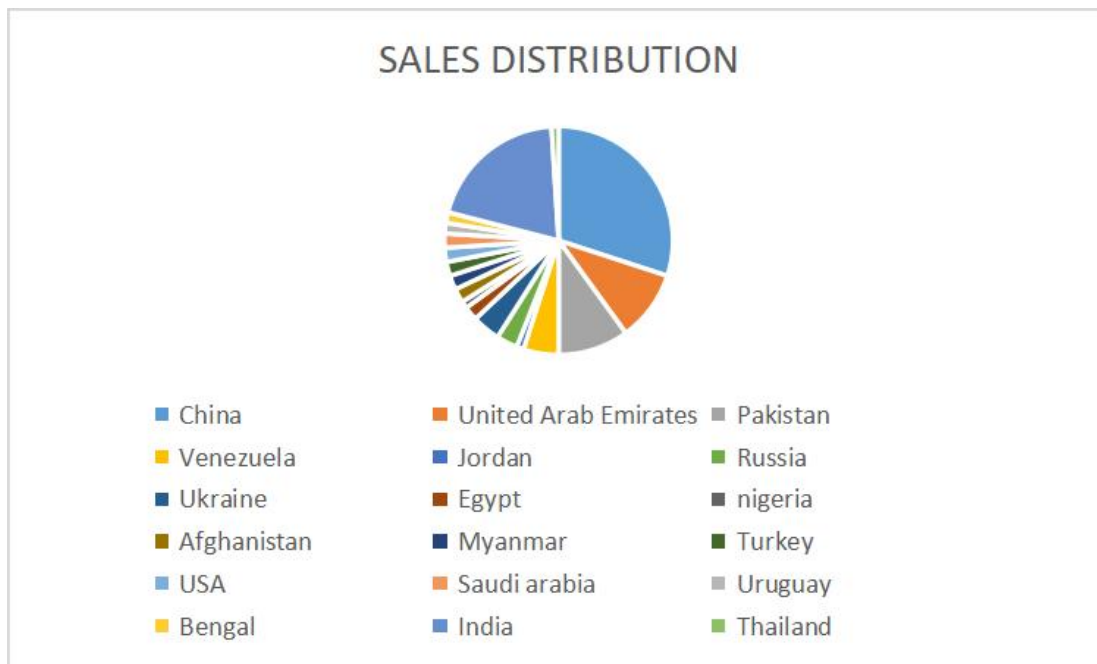

Automatic stacking and packing machine for 2inch & 4inch mill, rollers, TCT/HSS saw blades.

## 2000x12.7mm slitting line, 12 inch tube mill.

3 inch ERW tube mill, Hot Dip GI pipes making line, scarfing making machines, old mill modify projects, etc.

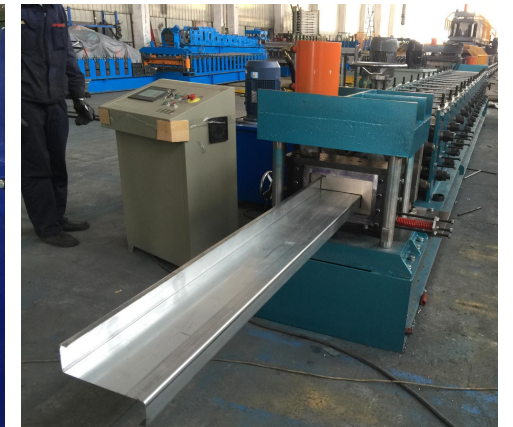

Tengdi Machinery is committed to serving customers in the middle and high-end market.

At present, after the technical investigation in Russia and South American countries, we already have rich experience in sales and marketing, and we will vigorously develop the Russian-speaking countries and South American markets.

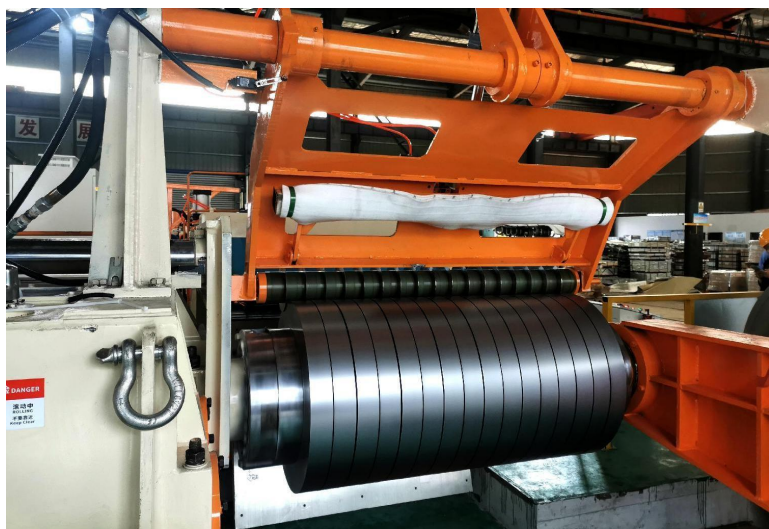

## 02 > UPDATED PRODUCTS - ROLL FORMING

### ROLL FORMING

Strong resource integration capabilities can help customers find the best domestic product resources as soon as possible.

## UPDATED PRODUCTS -CUT-TO-LENGTH/SPLITTING LINE

Double-blade slitting knife, saving 60% in tool change speed.

Cross cutting flying shear equipment, high efficiency, cost reduction and efficiency increase.

Strong resource integration capabilities can help customers find the best quality product resources in China as quickly as possible.

**UPDATED PRODUCTS**

## **PART THREE**

# **BUSINESS ADVANTAGE**

Professional organizational structure, experienced sales team, highly skilled research team, efficient brand operation team.

---

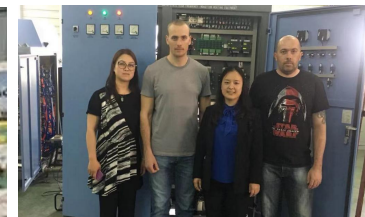

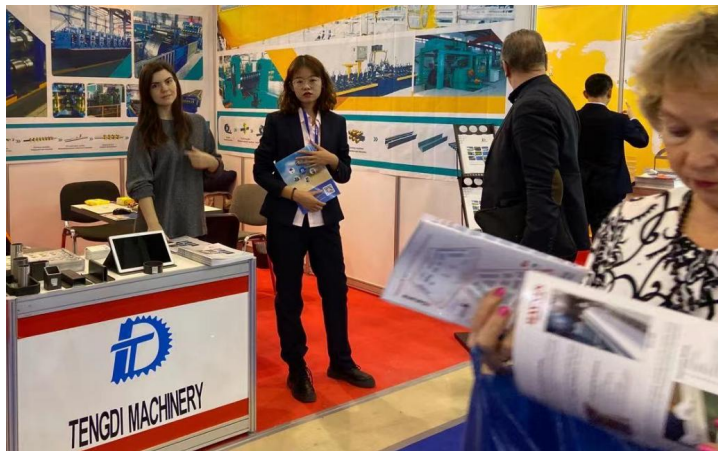

**03**

## 03 BUSINESS ADVANTAGE-Factory Strength

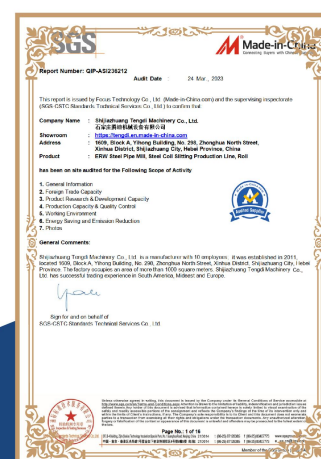

In line with the internationalization strategy, TENGDI has established three overseas offices to serve customers in 50 countries and regions including the Middle East, Eastern Europe, and South America. Products are widely used in oil pipelines, steel structures, low-pressure fluids, automobiles, furniture and other fields.

Our designs are customized according to the needs of our clients. All electrical components and supporting facilities adopt international components.

# BUSINESS ADVANTAGE-HONOR

Honor comes from hard work.

Every recognized qualification certificate is the crystallization of our hard work, every honor is a signpost, a journey.

We will also take every honor as a starting point, keep forging ahead and surpass ourselves.

The team has obtained more than 20 patents through independent research and development, and passed ISO9001 quality management system certification, SGS certification and environmental management system certification.

## **PART FOUR**

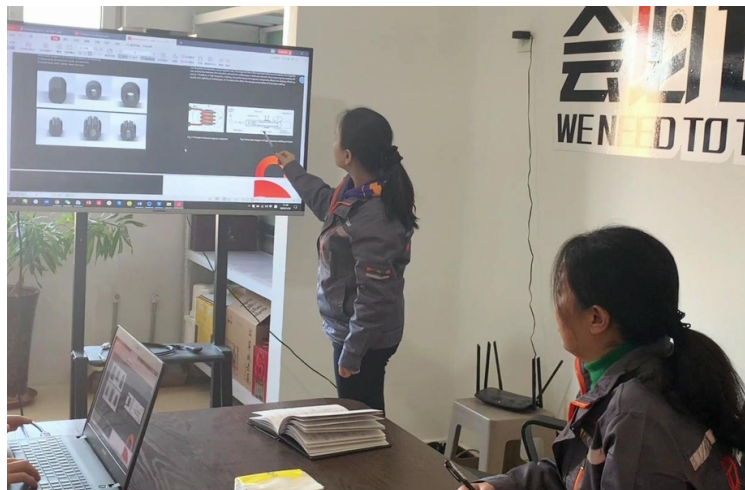

# **COMPANY CULTURE**

Company philosophy: help customers save costs, increase productivity, and improve the production environment.

---

**04**

## OUR TEAM

Improve team cohesion, communication and collaboration skills, and care for employee growth.

# 04 > COMPANY CULTURE

## **PART FIVE**

# **Summarize**

Let the world fall in love with Made in China.
