

HARDVOGUE

## Adhesive Cast Coated Paper - Technical Specification

### Technical Specifications:

Property	Unit	Value
Basis Weight	g/m <sup>2</sup>	80 ±2
Thickness	μm	75 ±3
Gloss (75°)	GU	≥ 85
Opacity	%	≥ 90
Tensile Strength (MD/TD)	N/15mm	≥ 35/18
Moisture Content	%	5-7
Surface Tension	mN/m	≥ 38

### Features:

- High gloss and smooth surface, suitable for high-quality printing.
- Excellent adhesion to various substrates.
- Strong resistance to moisture and UV light.
- Suitable for premium labels, packaging, and decorative applications.

### Storage Conditions:

- Store in a cool, dry place (Temperature: 10-25°C, Humidity: 40-60%).
- Avoid exposure to direct sunlight and extreme temperatures.
- Keep the material in original packaging until use to prevent contamination.
