## Cigarette Inner Liner

Cigarette Inner Liner is a specialized packaging material designed to maintain the freshness and quality of cigarettes. It features a high-barrier aluminum-coated structure that protects against moisture, oxygen, and external contaminants.

Applications:

- Used in cigarette packaging as an inner wrap.
- Enhances the shelf life by preventing moisture penetration.
- Adds a premium look and feel to cigarette packs.

Property	Unit	Value
Basis Weight	g/m <sup>2</sup>	50 ±2
Thickness	µm	45 ±3
Aluminum Layer Thickness	nm	30-50
Opacity	%	≥ 85
Gloss (75°)	GU	≥ 75
Tensile Strength (MD/TD)	N/15mm	≥ 25/12
Moisture Content	%	4-6
Surface Tension	mN/m	≥ 38
Heat Resistance	°C	Up to 180

Additional Features:

- Excellent printability for high-quality branding.
- Strong adhesion between aluminum and paper for enhanced durability.
- Available in glossy and matte finishes.
- Customizable coatings for increased water and grease resistance.

Storage & Handling:

- Store in a cool, dry environment (Temperature: 10-25°C, Humidity: 40-60%).
- Avoid direct sunlight and extreme temperature fluctuations.
- Handle with care to prevent scratches and deformation.
