

High precision millimeter wave/  
ultrasonic probe

HD LCD touch screen  
Display: video/picture/  
measurement result/slogan

Foldable

**SH-700G**

**Smart Child Height Weight Scale**

### Automatic System

Height, weight, BMI,  
body type,

### HD Screen

HD LCD 7.0-inch screen,  
intelligent guidance  
voice/animation prompts.  
playback of promotional  
videos, pictures, etc.

### Precise Accurate

High precise millimeter  
wave/ultrasonic probe,  
300kg weight sensor,  
stable and fast.

### Smart and Portable

Ergonomic design, sturdy  
and durable, foldable  
and portable, can be  
easily moved.

Optional:  
sitting height  
measurement

## SH-700G Parameters

Model		SH-700G
Control system	Smart system	Android 6.0 smart OS operating system
	Languages	English, Spanish, French, Arabic, Italian, Portuguese, Russian, Thai, Malaysian, etc.
Height measurement	System	using millimeter wave/ultrasonic sensors, high-frequency millimeter wave signal ranging, not affected by light, temperature, etc.
	Range	20~160cm/180cm(optional)
	Accuracy	±0.5cm      division value: 0.5cm or 0.1cm (adjustable)
Weight measurement	System	precision balanced beam resistive strain sensor
	Range	2~300kg
	Accuracy	±0.1kg      division value: 0.1kg or 0.01kg (adjustable)
	BMI	Adopt the latest WHO standard (can be adjusted according to needs)
Foldable	Machine height is 1.1m after folding, easy to carry and transport; equipped with wheels on the bottom for easy movement	
Expansion	Optional: sitting height measurement, thermal printer, thermometer gun, school card, coin operated, QR code, IC card etc.	
Advertising	LCD screen	high-definition LCD 7.0-inch display touch system, intelligent guidance voice animation prompt, multimedia playback.
	Picture	PNG, JPG/JPEG and other common formats
	Video	3GP, MP4, RMVB, RMFLV, MP4, AVI and other common formats
	Slogan	scrolling ad text
Data output	Wireless	WiFi: Bluetooth (optional); 4G (optional), cloud interface (optional), etc.
	Wired	RS232 serial port (standard);
Data storage	Can store more than 1 million pieces of measurement data and supports U disk export	
System compatible	Health system	can be connected with customer software
	Local archives	Self-service membership registration, health screening, historical query, data statistical analysis and management
Voltage	AC100V-240V(50Hz/60Hz)	Power: ≤10W
Dimensions	Machine size: 48*37*208cm/(188)/L*W*H	Net weight: 16kg    Gross weight: 21kg
	Package size: 126*31*31cm (10kg);	46*57*20cm (11kg)
Use scenarios	Hospitals, schools, clinics, community service stations, physical examination centers, pharmacies, shopping malls/supermarkets, etc.
