鹤威科技 成立于2005年，是全球领先的PU自结皮椅子制造商，通过了ISO9001:2008国际质量认证标准。

通过多年积累的经验和丰富的产品线，为全球客户提供最好的座椅类产品的解决方案。

我们致力研发出舒适、耐用、易清洁的室内座椅类产品；其中很大一部分已经都通过了美国BIFMA的座椅类产品的压力测试。

“拯救地球” 是我们的承诺：我们坚持生产和技术管理上都用环保的可循环利用的低碳材料。

Company profile

Hewei Technology, Established in 2005, which one of the market leader in seating with Integral Skinning Foam and obtain ISO9001:2008 certificates at the first attempt.

We have the experience and product range to provide seating solutions for all waiting area projects.

Our products are developed in-house and reflect the demand for comfortable, durable and easy maintenance seating. Some of our chairs have passed the BIFMA test.

“SAVE THE FOREST” our commitment: technology and operation, the use of environmental and recyclable raw material.

Polyurethane good point PU自结皮优点

高端材料，30多年来广泛用于高档汽车内饰（仪表台、方向盘等）；
Hi-Tech material: Widely use in premium car interior (instrument panel, steering wheel etc) for more than 30 years

引进欧美先进RIM技术，产品一次发泡成型；使用寿命比传统蒙皮（PU/PVC皮革）长3-4倍
Ultra long life (Durable, 8 years warranty, 3-4 times service life than PU/PVC leather) due to advanced production from the western RIM technology to finish by molding injection

泡沫芯层结构，既有皮的感觉，又有海绵的舒适感；耐寒性好，椅子特别适用于寒冷天气。
Adapt to arctic weather (Makes you feel warm & soft even in arctic weather; never break within warranty)v

表皮组织严密，易清洁、易保养、不易滋生细菌，特别适合医疗配套工程。
Easy to clean, maintenance-free, antimicrobial properties. Especially apply to public / hospital seating solutions.

先进CA117阻燃配方，符合公共场所的高安全要求；
CA117\BS5852\C14\TDCPP（防火）；BIFMAX5.1\5.4-2012(成品椅)
CA117 fire-retardant approval on seat & back cushions, BIFMAX5.1\5.4-2012 standard for complete chairs to meet safety requirements for public area

环保产品，通过欧美SGS严格检测的环保标准“US EPA 5021”（无氯氟烃）
Environmental friendly (RoHS, Non-CFC), UV resistance is optional also.

AIR PORT AREA

公共椅/機場椅

Sometimes one has to pass
the time waiting,
other times one
can take advantage of this,
for others it is a
pleasurable diversion.
In any case whoever
waits has to be
comfortably seated.
Hewei technology pays careful
attention to the ergonomics of
the chairs it produces.

美好的旅程很多時間
都要在機場等候，
大部分的時間我們
可以充分利用起來；
爲了能讓大家在等待的時候
有舒適的休息環境；
鶴威科技用心的制造出符合
“人體工程學”的優秀公共座椅
給大家分享！

“100” System has been designed using the finite element method as simulation technique, therefore achieving a complete mechanical optimization of each of the components. As a result, “100” features perfectly defined parameters in its forms as well as in the quality-structure relation of all materials. The use of components manufactured in aluminium high pressure die casting and self-coloured polyurethane integral foam guarantees constant performance, efficiency and reliability of every configuration.

100 系列

Polyurethane (Integral Skinning Foam) waiting Areas Seating PU自結皮公共排椅

“100” system, the culmination of months of research, design and development, is latest release in beam seating from Hewei Technology. the stylish appeara and flowing lines of the “100” beam seat also incorporates an ideology cearound ergonomics and offers long term, comfortable support. Design, stand comfort are complemented by the heavy duty support structure from which “088” gains the strength and durability to outperform and outlast competition.

With a number of customisable options, “088” caters to even the most demanding international installations making it the premium choice for an discerning business wanting to make a long lasting, positive impression.

“099” System features clean visual lines and contemporary simplicity offering attractive, durable and comfortable configurations. Seat and backrest adapt to the natural contours of the human form offering comfort particularly for extended periods.

“099”系列產品的設計特點是：簡潔的流綫型設計，現代樸實設計元素，耐用及舒適的結構配置；坐墊和靠背突出人體工學自然設計理念，特別適合人們在公共場所的長期使用！

HEWEI
TECHNOLOGY

LC099A1-3

Polyurethane Technical Features PU自结皮五大技术含量

Superior comfort(特别舒适)

“088” System innovative construction, which features cantilever seats, offers users superior comfort, even when they are required to wait for extended periods of time.

Elegant appearance (美观大方)

“088” System subtle shape gives it both a lightweight and elegant appearance. The elegant look of the system can be further under scored by using high-quality coach hide leather.

Ease of maintenance (保养方便)

The individual seats, which only need four screws to be secured to the crossbeams, can be replaced quickly and easily if needed.

Durability (坚固耐用)

Both the materials used – the seat shells are made of polyurethane hard foam – and the construction of Eddy are extremely robust and stable, which means that the system can resist the wear and tear that it is subjected to in public waiting areas.

Wide range of uses (用途广泛)

“088” System is ideal for all kinds of public waiting areas, such as airports, train stations, hospitals and shopping malls, as well as for the waiting rooms of doctors’ offices and similar spaces.

BAR AREA

吧 椅

The word bar derives from the English word barrier. At one time, in fact, the corner reserved for the sale of alcohol, in pubs or taverns, was divided from the rest of the room by a bar. Memory is the counter, in front of which the stools are arranged. Fixed or adjustable, Hewei products proposes the variant stool in the chair collection.

英文“酒吧”的單詞來源于“界綫、屏障”。某個時期，酒精往往在大街的酒吧角落處分開出售。記憶中的酒吧櫃臺前是有吧椅乘坐，有固定的、有可以調節的。鶴威科技努力提高各種款式的吧椅給不同的場合使用。

059 Series

059 系列

Our Engineer and designer has created a chair system for waiting areas with polyurethane hard foam. His seat was to facilitate superior comfort to protect the waist. He wanted to fashion a system in a sleek, minimalist style with the lightweight and extremely elegant appearance. That has become his trademark. The technical sophistication is not immediately apparent. The system is easy to put together and is also extremely durable.
