SBDO 2 Coin Sachet Machine

What does it do?

Coin Sachet Machine is better suited to countries with multisided coins as they are loosely held in small plastic bank bags. The sachet machine creates identical small clear plastic bags for any coin using a single roll of plastic film and a heated cutter. It ensures that you achieve an accurate, secure and cost effective method of packaging large amounts of coin.

How does it do?

This coin sachet system is very simple to operate, just by putting the coins into the coin counter hopper, it will pack the coins automatically out.
Combined with the well proven coin counter HCS-3500AH, this coin sachet machine can reach the speed of 30 sachets per minute(max.), 20 coins per sachet.

What feature does it have?

This unit offers user-friendly controls enabling the operator to select any value of coin to be packaged in security sealed bags. The mechanics of the machine have been specifically designed for trouble-free control, simple operation and easy maintenance.

What feature does it have?

- Saving labor cost
- Proven Robust Electrical and Mechanical Design
- Simple Operation
- Compact design on castors to enable it to be moved between rooms
- Maximum access for cleaning and maintaining
- Suitable for all countries' coins including Russian coins, UK Sterling, Euros and US as well as most tokens

Technical Specifications

SBDO 2 Coin Sachet Machine	
Counting speed	≦1500pcs / min (For coins with a diameter of 25mm)
Diameter	14-34.0mm
Thickness	0.8-3.8mm
Hopper capacity	4000pcs
Packing speed	≦15packages / min (For coins with a diameter of 25mm, 40pcs coins/package)
Package way	Hot iron
Packing bag size	Length:100-140mm, Width:100mm
Operation interface	HMI
Driving mode	Electric
Power requirements	AC 220-240V 50Hz
Current	AC 6A
Power consumption	1.2KW
Dimension	1100×450×510 (H×W×D)
Weight	68.5Kg
Noise	< 70dB
Control system	PLC XC5-32T-E / C
Packing material	100micron multilayer film
